Community Safety and Crime Prevention (CSCP) Advisory Committee

Delegation Submission to:

Community and Protective Services Committee, City of London

Thank you to the Community and Protective Services Committee for granting the delegation request from the Community Safety and Crime Prevention Advisory Committee.

The members around the CSCP table whether voting or non-voting, members-at-large or representative members are passionate about and committed to the mandate and responsibilities outlined in our Terms of Reference. We are proud of the work we have done.

Our Chair, Laila Norman, and various other CSCP Committee members provided me with a *short list* of some of the actions and initiatives that originated with CSCP, were initiated by CSCP and passed to other agencies to deliver, or were promoted, recommended, and supported by CSCP. The list is far from complete and is included in my written submission. There are 31 items on the list.

How were we able to accomplish these items? Because of the current composition of members on the committee.

2019 Community Safety Week took place from May 5th to 11th. We had 27 Community Partner Organizations contribute to the week and 59

individuals from these organizations showcasing, sharing, and promoting safety information, resources, and services available within the City of London. No other advisory committee does this type of work. And I think we did the City proud. (The list is included in my written submission.)

How were we able to bring together that many people and organizations? Because of the current composition of members on the committee.

It is my understanding you have been provided with the CSCP Terms of Reference. I am here today, on behalf of the committee, to request that you do NOT change the composition of the members, as per our Terms of Reference, for the next two years.

We have a position within the educational community (which really includes everyone) that: Fairness is not sameness. Treating everyone the same way will not help them – it is not equity – and it will not help you.

Our committee is somewhat unique. We have a collaborative mix of members-at-large and representative voting members – and non-voting members. Everyone is an equal at the table. There are no personal or group agendas. We, each, and all, share concerns, trends, and issues we are seeing and dealing with, are worried about. Then, as a group we discuss what to do next – whether it be to ask for more information

and/or then discuss a potential solution or next step for recommendation to Council. Our members-at-large contribute with their concerns and the representative members discuss how we can help – and our members-at-large give the “representative” members invaluable feedback on issues they raise as a concern. It is a wonderful balance and it has worked very well.

Demographically, we collectively encompass EVERY demographic within the City of London. If the City moves to members-at-large “only” you will be moving to narrower not broader community representation. It will be gone. You will be losing the school boards, the parent groups, the youth, the seniors, the health & safety groups, the resource groups. You will be losing all the partners around the table.

Last fall, before the new Council was elected, and well before this change in committee composition was proposed, we began our own review of our Terms of Reference. We recognized we needed more direct and inclusive representation from the demographics we encompass. We wanted to add: addiction services, LEDC, EMS, Multi-cultural, Newcomer, and Indigenous members.

It is most unfortunate that the format for Committee Agendas and Minutes changed a few years ago. They no longer capture the direction, discussions or decisions made. They only report the motions/specific recommendations to Council. So our City Council and the public have

no meaningful information on what issues we have discussed, why, or what resulted. In short, our new Council has no meaningful information on what we do or have done.

A recent example of this is the Active and Safe Routes to School Program. Not only have we been promoting the program, we have been discussing how we can engage seniors in the community to facilitate walking school busses, where any liabilities would lie, the involvement of Student Transportation Services, safety audits around schools to ensure safe travel ways, maintenance of the travel ways, local public input on safe travel plans, engaging parents to encourage walking, wheeling, and biking to schools, and to reduce traffic in school zones. We ran the Active and Safe Routes to School Contest in the elementary schools in both boards which resulted in 28 very happy young winners. The video and poster submissions will be used to raise awareness and further promote healthy active travel in London.

I must ask: What do you want from the Community Safety and Crime Prevention Advisory Committee? What is in the best interests of the Community and the City?

Please read our mandate and responsibilities. They cannot be met or accomplished by members-at-large ONLY.

Short List of CSCP Contributions:

CSCP Chair, Laila Norman, and various other Committee members provided a short list of some of the actions and initiatives that originated with CSCP, were initiated by CSCP and passed to other agencies to deliver, or were promoted, recommended, and supported by CSCP – this list is far from complete:

1. The Children's Safety Village – which provides students from Thames Valley District School Board and London District Catholic School Board with valuable safety lessons they carry with them life-long.
2. Buckle-Up-Baby – ensuring that car seats were properly installed.
