#### 6. Adjournment

то:	CHAIR AND MEMBERS CORPORATE SERVICES COMMITTEE MEETING ON APRIL 14, 2020
FROM:	ANNA LISA BARBON MANAGING DIRECTOR, CORPORATE SERVICES AND CITY TREASURER, CHIEF FINANCIAL OFFICER
SUBJECT:	2020 DEBENTURE ISSUANCE

#### **RECOMMENDATION**

That, on the recommendation of the Managing Director, Corporate Services and City Treasurer, Chief Financial Officer:

- a) Civic Administration **BE AUTHORIZED** to proceed with the issuance of debentures in the capital markets upon favourable market conditions to provide permanent financing for capital works in an amount not to exceed \$36,000,000;
- b) Civic Administration BE INSTRUCTED to schedule and convene an appropriately timed special Corporate Services Committee meeting upon successful placement of the City's debt in the capital markets to ensure adequate time for Council approval while adhering to the necessary financial settlement requirements.

#### LINK TO THE 2019-2023 STRATEGIC PLAN

Council's 2019-2023 Strategic Plan for the City of London identifies "Leading in Public Service" as a strategic areas of focus. Continuing to ensure the strength and sustainability of London's finances and adhering to the City of London's limit on authorized debt are strategies to maintain London's finances in a well-planned manner to balance equity and affordability over the long term. The 2020 Debenture Issuance report ensures that the proper mechanisms are in place to fund major capital projects while supporting intergenerational equity.

#### **BACKGROUND**

A municipality may issue debt for long-term borrowing to provide financing for capital works. The City issues debentures on projects that are substantially complete. The City reviews project status reports to determine if projects are substantially complete and this analysis along with cash flow requirements, budget constraints and market conditions determine the amount and timing of debentures issued each year. Generally, the City issues debentures through the capital markets using a fiscal agent or through government programs.

A review of approved capital projects indicates that projects meeting the required criteria for long-term debenture financing total \$36,000,000. The details of these projects are listed in **Appendix A**.

Over the past five years, the City has issued a total of approximately \$215.9 million in long-term debt as follows:

la anno B	Amount of	Term	All in Rate of	<b>T</b>	A
Issuance Date	Issuance(\$)	(years)	Borrowing*	Туре	Agency
2-Apr-2019	49,380,000	10	2.66%	Serial/Instalment	Capital Markets-CDS&CO

As part of the debenture issuance process, the City's fiscal agents provide recommendations on the form and timing of the issuance. The three main types of debenture issuances are:

- 1. Serial debentures debt instrument that matures in installments over a period of time. In effect, a \$100,000, 5-year serial debenture would mature in approximate equal amounts of \$20,000 annually with unique coupon rates for each year.
- 2. Amortizing debentures debt instrument where the principal is paid down over the life of the debenture according to an amortization schedule, typically through equal payments and one coupon rate.
- 3. Bullet debentures debt instruments whose entire principal value is paid all at once on the maturity date, as opposed to periodic principal payments over the life of the debenture. These types of debentures are best suited for municipalities issuing greater than \$100 million and are structured so that a sinking fund is established to cover the principal value upon maturity.

#### **Next Steps**

National Bank Financial Inc. will launch and price the City's debenture issuance deal in the capital markets upon favourable market conditions. A report will be brought forward to a special Corporate Service Committee meeting to approve the debenture issuance and the respective bylaw, with Council approval to follow. Timing of the City's debenture pricing will be dependent on market conditions. As such, the timing of the upcoming report to approve the debenture issuance will be dependent on activity in the marketplace.

#### **Current Market Conditions**

As the COVID-19 pandemic continues to impact multiple aspects of daily activity across the globe, financial/capital markets have reacted and continue to shift daily to new developments, announcements and outlooks. Civic administration is continually in touch with its fiscal agents to monitor the evolving markets and impacts to the City's upcoming debt issuance.

At the time of writing this report (April 2nd, 2020), the capital markets for municipal debt issuances have not been favourable as the COVID-19 situation has evolved. No municipal deals have been successfully completed in a number of weeks due to the "risk-off" tone and lack of liquidity in markets. The federal government has recently announced numerous programs to ease the economic fallout of the ongoing pandemic. Furthermore, the Bank of Canada has announced a

number of various decisions, programs and measures to improve market liquidity and hence improve market conditions. An example of some key announcements:

- The Canadian overnight rate has been cut three times within the past month (50 basis points at each cut), resulting in a current overnight rate of 0.25%.
- The Bank of Canada is launching the Commercial Paper Purchase Program, in which the Bank will purchase debt (commercial paper) of Canadian firms, municipalities and provincial agencies with the aim of supporting the flow of credit to the economy.
- The Bank of Canada will begin to acquire Government of Canada securities in the secondary market.
- Expansion of Insured Mortgage Purchase Program through Canada Mortgage and Housing Corporation (CMHC), with the goal of freeing up lending capacity at financial institutions.

Collectively, these measures are aimed at providing further liquidity in the markets and in discussion with our fiscal agents, it is anticipated that these programs will indirectly improve liquidity and demand for municipal debentures. It has been recommended that the City of London be prepared to take advantage of any window of stability in the markets – as soon as it arises – in order to complete its debenture issuance in these very turbulent and ever-changing markets. The timing of actual issuance is uncertain and will be dependent on how the COVID-19 pandemic and associated economic impacts continues to develop.

#### **Financial Impact**

The financial impact of this debenture issuance has been included in the 2020–2023 Multi-Year Budget and will also be incorporated in future Multi-Year Budget submissions. Furthermore, proceeds from our debt issuance will represent a cash injection to the City to aid in managing cash flows and maintaining its positive liquidity position.

CONCLUSION
------------

The City's 2020 planned debt issuance will provide the required long-term funding for the identified projects within Appendix A and aligns with the City's Debt Management Policy. This approval will provide the authorization to act accordingly with minimal delay upon improvement in market conditions.

https://pub-london.escribemeetings.com/filestream.ashx?DocumentId=38692

#### **LINK TO 2019-2023 STRATEGIC PLAN**

The following report supports the Strategic Plan through the strategic focus area of "Building a Sustainable City", under the outcome of ensuring London's infrastructure is built, maintained and operated to meet the long-term needs of our community.

Provincial investments supporting public transit infrastructure in London represent important contributions to maintaining and improving the quality of life of all Londoners.

#### **BACKGROUND**

In 2004, the Province of Ontario announced its Dedicated Gas Tax Funds for Public Transportation Program (Provincial Gas Tax). The Program provides municipalities with two cents per litre of provincial gas tax revenues. This funding was made permanent in 2013.

The Province prescribes that dedicated gas tax funds are to be used for the following purposes:

- Public transportation capital expenditures that promote increased transit ridership, and are above a municipality's baseline spending;
- Public transportation operating expenditures that are above a municipality's baseline spending;
- Capital expenditures for the replacement of any public transportation vehicles that are above a municipality's baseline spending;
- Capital expenditures that provide improvements to public transportation security and passenger safety, and are above a municipality's baseline spending; and,
- Expenditures for major refurbishment of any fully accessible, or to be made fully accessible, public transportation vehicle, with the exception of specialized vehicles used for the transportation of persons with disabilities, and are above a municipality's baseline spending.

All Provincial Gas Tax funding is transferred to the London Transit Commission.

The Minister of Transportation recently confirmed the City of London's allocation of \$10,656,850 for the 2019/2020 Program. This represents a 3% increase over last year's allocation. The City of London is very appreciative of the Province's commitment to the Provincial Gas Tax Program. Annual, predictable, and sustainable funding through programs like the Provincial Gas Tax Program provide the City of London with the certainty required to plan for the diverse needs of Londoners over the long term.

Investments into public transit make it easier for people to travel to and from work, school and appointments, reduces congestion and lowers air pollution. One bus takes up to 40 vehicles off the road and keeps 25 tonnes of greenhouse gas emissions out of the atmosphere each year. Increasing mobility choices for Londoners and visitors provides greater links to economic, social and cultural engagement within our city and beyond.

Each year the attached Letter of Agreement and supporting by-law must be received by the Province before the funds will be released. The purpose of this report is to authorize the Mayor and the City Treasurer to execute the Letter of Agreement between the Province of Ontario and the City of London.

Attach.

#### Appendix "A"

Bill No. 2020

By-law No.

A By-law to authorize the execution of a Letter of Agreement for the transfer of Provincial Gas Tax funding.

WHEREAS section 5(3) of the Municipal Act, 2001, as amended, provides that a municipal power shall be exercised by by-law:

THEREFORE The Municipal Council of The Corporation of the City of London enacts as follows:

- 1. The Mayor and Managing Director, Corporate Services and City Treasurer, Chief Financial Officer are hereby authorized to execute a Letter of Agreement for the transfer of Provincial Gas Tax funding under the Dedicated Gas Tax Funds for Public Transportation Program between the Province of Ontario and The Corporation of the City of London as outlined in Schedule "1" attached hereto. The Letter of Agreement shall form part of this by-law.
- 2. This by-law shall come into force and take effect on the day it is passed.

MAR 1 2 2020

Mayor Ed Holder City of London 300 Dufferin Avenue, PO Box 5035 London ON N6A 4L9

Dear Mayor Holder:

RE: Dedicated Gas Tax Funds for Public Transportation Program

This Letter of Agreement between the **City of London** (the "Municipality") and Her Majesty the Queen in right of the Province of Ontario, as represented by the Minister of Transportation for the Province of Ontario (the "Ministry"), sets out the terms and conditions for the provision and use of dedicated gas tax funds under the Dedicated Gas Tax Funds for Public Transportation Program (the "Program"). Under the Program, the Province of Ontario provides two cents out of the provincial gas tax to municipalities to improve Ontario's transportation network and support economic development in communities for public transportation expenditures.

The Ministry intends to provide dedicated gas tax funds to the Municipality in accordance with the terms and conditions set out in this Letter of Agreement and the enclosed Dedicated Gas Tax Funds for Public Transportation Program 2019/2020 Guidelines and Requirements (the "quidelines and requirements").

In consideration of the mutual covenants and agreements contained in this Letter of Agreement and the guidelines and requirements, which the Municipality has reviewed and understands and are hereby incorporated by reference, and other good and valuable consideration, the receipt and sufficiency of which are expressly acknowledged, the Ministry and the Municipality agree as follows:

- To support local public transportation services in the Municipality, the Ministry agrees to
  provide funding to the Municipality under the Program to a maximum amount of up to
  \$10,656,850 ("the "Maximum Funds") in accordance with, and subject to, the terms and
  conditions set out in this Letter of Agreement and, for greater clarity, the guidelines and
  requirements.
- 2. Letter of Agreement and a copy of the authorizing municipal by-law(s) and, if applicable, resolution(s) for the Municipality to enter into this Letter of Agreement, provide the Municipality with \$7,992,638; and any remaining payment(s) will be provided thereafter.
- 3. If another municipality authorizes the Municipality to provide local public transportation services on its behalf and authorizes the Municipality to request and receive dedicated gas tax funds for those services also on its behalf, the Municipality will in the by-law(s) and, if

Page 1 of 3

- applicable, resolution(s) described in section 2 confirm that the Municipality has the authority to provide those services and request and receive those funds.
- 4. The Municipality agrees that any amount payable under this Letter of Agreement may be subject, at the Ministry's sole discretion, to any other adjustments as set out in the guidelines and requirements.
- 5. The Municipality will deposit the funds received under this Letter of Agreement in a dedicated gas tax funds reserve account, and use such funds and any related interest only in accordance with the guidelines and requirements.
- 6. The Municipality will adhere to the reporting and accountability measures set out in the guidelines and requirements, and will provide all requested documents to the Ministry.
- 7. The Municipality agrees that the funding provided to the Municipality pursuant to this Letter of Agreement represents the full extent of the financial contribution from the Ministry and the Province of Ontario under the Program for the 2019/2020 Program year.
- 8. The Ministry may terminate this Letter of Agreement at any time, without liability, penalty or costs upon giving at least thirty (30) days written notice to the Municipality. If the Ministry terminates this Letter of Agreement, the Ministry may take one or more of the following actions: (a) cancel all further payments of dedicated gas tax funds; (b) demand the payment of any dedicated gas tax funds remaining in the possession or under the control of the Municipality; and (c) determine the reasonable costs for the Municipality to terminate any binding agreement(s) for the acquisition of eligible public transportation services acquired, or to be acquired, with dedicated gas tax funds provided under this Letter of Agreement, and do either or both of the following: (i) permit the Municipality to offset such costs against the amount the Municipality owes pursuant to paragraph 8(b); and (ii) subject to section 1, provide the Municipality with funding to cover, in whole or in part, such costs. The funding may be provided only if there is an appropriation for this purpose, and in no event will the funding result in the Maximum Funding exceeding the amount specified under Section 1.
- 9. Any provisions which by their nature are intended to survive the termination or expiration of this Letter of Agreement including, without limitation, those related to disposition, accountability, records, audit, inspection, reporting, communication, liability, indemnity, and rights and remedies will survive its termination or expiration.
- 10. This Letter of Agreement may only be amended by a written agreement duly executed by the Ministry and the Municipality.
- The Municipality agrees that it will not assign any of its rights or obligations, or both, under this Letter of Agreement.
- 12. The invalidity or unenforceability of any provision of this Letter of Agreement will not affect the validity or enforceability of any other provision of this Letter of Agreement. Any invalid or unenforceable provision will be deemed to be severed.
- 13. The term of this Letter of Agreement will commence on the date of the last signature of this Letter of Agreement.

14. The Municipality hereby consents to the execution by the Ministry of this Letter of Agreement by means of an electronic signature.

If the Municipality is satisfied with and accepts the terms and conditions of this Letter of Agreement, please print it, secure the required signatures for it, and then return a fully signed copy, in pdf format, to the following email account:

MTO-PGT@ontario.ca

Sincerely,

Carrive While mey

Caroline Mulroney Minister of Transportation

I have read and understand the terms and conditions of this Letter of Agreement, as set out above, and, by signing below, I am signifying the Municipality's consent to be bound by these terms and conditions.

то:	CHAIR AND MEMBERS CORPORATE SERVICES COMMITTEE MEETING ON APRIL 14, 2020
FROM:	ANNA LISA BARBON MANAGING DIRECTOR, CORPORATE SERVICES AND CITY TREASURER, CHIEF FINANCIAL OFFICER
SUBJECT:	YEAR 2020 TAX POLICY

# RECOMMENDATION

That, on the recommendation of the Managing Director, Corporate Services and City Treasurer, Chief Financial Officer, the following actions be taken with respect to property taxation for 2020:

- a) the Civic Administration **BE DIRECTED** to prepare a proposed by-law for introduction and enactment at the Municipal Council meeting to be held on April 21, 2020, reflective of committee recommendations in accordance with Sub-sections 308(4) and 308.1(4) of *the Municipal Act, 2001*, to set tax ratios in the various property classes in keeping with the option selected by the Municipal Council from the <u>attached</u> Schedule "B"; it being noted that the 2020 Municipal Tax Ratio By-Law (<u>attached</u> as Appendix A) has been prepared reflecting option AB1;
- b) the Civic Administration **BE DIRECTED** to bring forward a proposed by-law (<u>attached</u> as Appendix B) for introduction and enactment at the Municipal Council meeting to be held on April 21, 2020, to fully utilize options available in 2020 to exclude properties in capped property classes which have reached current value assessment tax levels or higher in 2019, from being capped again in 2020 and future years;
- c) the Civic Administration **BE DIRECTED** to bring forward a proposed by-law (<u>attached</u> as Appendix C) for introduction and enactment at the Municipal Council meeting to be held on April 21, 2020 to initiate a four (4) year phase out of capping for any of the non-residential property classes, where London is eligible for such option, and exclude vacant land from the capping phase-out eligibility criteria where all properties must be within 50% of current value assessment (CVA) level taxes;
- d) the Civic Administration **BE DIRECTED** to bring forward a proposed by-law (attached as Appendix D) for introduction and enactment at the Municipal Council meeting to be held on April 21, 2020 to limit capping protection only to reassessment related changes prior to 2017, and that reassessment changes in capped classes thereafter would not be subject to the cap; and
- e) the Civic Administration **BE DIRECTED** to bring forward a proposed by-law (<u>attached</u> as Appendix E) for introduction and enactment at the Municipal Council meeting to be held on April 21, 2020 to adopt the capping formulae for the commercial, industrial and multi-residential property classes as described in detail in this report.

Corporate Services Committee, April 30, 2019, Item # 2.1, Year 2019 Tax Policy

#### **BACKGROUND**

#### Tax Ratios for 2020 Taxation – (Recommendation A)

#### Definition of the Term "Tax Ratio"

Tax ratios compare the tax rate for <u>municipal purposes</u> in a particular property class to the residential class. The ratio for the residential class is deemed to be 1.00. A tax ratio of 2.00 would therefore indicate a <u>municipal</u> tax rate twice the residential municipal tax rate. Education tax rates are set by the Province and are not dependent on tax ratios approved by Municipal Council. Under subsection 308(4) of the *Municipal Act*, 2001 all single tier municipalities are required to pass a by-law each year to establish tax ratios for the year.

#### History of Tax Ratio Setting Restrictions

Beginning in 2001, the Province established threshold tax ratios for three (3) property classes - commercial, industrial and multi-residential. At the time, the Province indicated that these threshold ratios represented the Provincial average in each class. For 2017, the multi-residential threshold ratio was reduced from 2.74 to 2.00. Under provisions of the *Municipal Act, 2001,* and related Regulations, municipalities were not permitted in 2001, or subsequent years, to impose a general municipal levy increase on a property class which had a ratio exceeding the Provincial threshold. Beginning in 2004, this restriction was modified somewhat to permit levy increases at half the residential rate in property classes with tax ratios above Provincial thresholds. The Province advised on December 20, 2019 that this flexibility will be provided to municipalities again for 2020 taxation, except in the case of the multi-residential class where the tax ratio is greater than 2.00.

#### London's Tax Ratios, Provincial Thresholds and Municipal Comparisons

In reviewing tax policy for 2020, it should be noted that none of the property classes in the City of London are above the Provincial thresholds. The only property class in London that was ever above the Provincial threshold was the industrial class. Council moved the industrial class ratio down to the threshold for 2001 taxation. At the time of the last reassessments in 2006, 2009 and 2013, Council maintained the policy of not permitting tax ratios in any property class to exceed Provincial thresholds.

The tax ratios in effect for 2019, and their proximity to the Provincial thresholds or averages established in 2001, as well as the Provincial targets, or allowable ranges, can be summarized as follows:

	City of London 2019 Tax Ratio	Provincial Threshold/Average (O.Reg. 73/03)	Provincial Targets/Allowable Ranges (O.Reg. 386/98)
Commercial	1.920000	1.98	0.6 to 1.1
Industrial	1.920000	2.63	0.6 to 1.1
Multi-Residential	1.749100	2.00	1.0 to 1.1
Pipeline	1.713000	N/A	0.6 to 0.7
Farm	0.102820	N/A	N/A
Residential	1.000000	N/A	N/A

Schedule "D", attached, provides comparative information on how different municipalities tax the various different major property classes. The information from Schedule "D" comes from the 2019 BMA Municipal Study and includes all municipalities with populations greater than 110,000. The last column of Schedule "D" is a theoretical calculation that shows the tax increase that would be required in the residential property class in each municipality if all property classes had a tax ratio of 1.00. The Schedule indicates that the theoretical adjustment for the City of London would be near the median and the average for the group.

## Possible directions identified in the Future Tax Policy report to the Corporate Services Committee on February 18, 2020

In the above referenced report four (4) possible directions were identified. They were as follows:

- 1. Maintain tax ratios in the three (3) main non-residential classes at their current levels:
- 2. Adjust ratios on an annual basis to mitigate assessment related tax increases in property classes (possibly giving priority to the multi-residential property class);
- 3. Reduce all the non-residential tax ratios in a gradual way (possibly giving priority to the multi-residential property class); and/or,
- 4. Focus only on lowering the multi-residential tax ratio over a period of time.

Items two (2) and three (3) above are not mutually exclusive, could overlap in a gradual implementation and will be affected by the reassessment process.

Every four (4) years the property tax base of the entire Province is reassessed and new market values are phased into the property tax system. This phasing in process, without any intervention in the form of tax ratio setting, results in shifts in taxation between property classes. The tax ratio rules, however, established by the Province, permit the setting of tax ratios to offset tax shifts within certain limits. These limits are maximum ratios that the Province sets for certain non-residential property classes.

In the current phase in process that is taking place for the period of 2017 to 2020, equalizing tax increases in the residential and multi-residential property classes has necessitated a reduction in the multi-residential tax ratio during this period of time.

In reference to the possible directions listed above, Schedule "B" '2020 Tax Policy Alternative Tax Ratio Options for Consideration' has been compiled. The first column of Schedule "B" shows the result if no changes are made to tax ratios (direction #1 above). Option A on schedule B reflects direction #2 referenced above. Option B on schedule B

also reflects direction #2 above. Option C reflects direction #2 and #3 above, with a focus on the commercial and industrial classes. Option D reflects direction #4 referenced above.

#### Tax Ratios –Commercial and Industrial (Recommendation A)

Schedule "A", <u>attached</u>, summarizes the tax ratios for all municipalities with populations greater than 110,000 included in the 2019 Municipal Study, prepared by BMA Management Consulting Inc. The <u>attached</u> Schedule "A" shows the tax ratios for the three (3) main non-residential property classes – Commercial, Industrial, and Multiresidential. In 2015, the City of London achieved a long term objective, identified in September 2011, of lowering and equalizing the tax ratios in the main non-residential property classes. Over a four (4) year period, the City adjusted all the main non-residential tax ratios to a level of 1.95. Both the Region of Waterloo and the City of London had uniform ratios of 1.95 for all the aforementioned property classes in 2015. In 2016, 2017, 2018, and 2019 the City decreased the multi-residential ratio to equalize the municipal tax increase in the residential and multi-residential property classes.

For 2020, it is recommended that the Commercial and Industrial tax ratios continue to be maintained at a uniform level. It would seem there is no logical justification for taxing industrial properties at higher rates than commercial properties, as was a past practice. The Province has accepted the validity of this position in the setting of education tax rates for commercial and industrial properties. For the first time in 2017, the Province established equal education property tax rates for commercial and industrial properties and has continued this practice in 2018, 2019, and 2020.

For 2020, the Commercial and Industrial tax ratios could be set at a level to equalize municipal tax increases in the commercial and residential property classes. This level is indicated in option A on the <u>attached</u> schedule "B". This option would result in the commercial and industrial ratios being set at what is generally described as a revenue neutral level. If no ratio adjustment is made in the commercial class, the average municipal tax increase in the class would be 7.94% as indicated on the <u>attached</u> Schedule "C". Schedule "A" indicates that the City of London commercial tax ratio in 2019 was above the average level although close to the median level for the group.

Lowering the commercial/industrial tax ratio could potentially provide greater flexibility at the time of a future reassessment where there may be a shift in taxation towards the residential property class. The next reassessment was scheduled for 2021 however it was recently (March 25, 2020) postponed as a result of COVID-19 measures. Under current legislation, if the commercial tax ratio is increased beyond 1.98, a portion of the tax levy increase on the commercial property class is restricted and transferred to other property classes, including residential. Where the tax ratio is below 1.98, the municipality would have flexibility to prevent tax shifts towards the residential class. The greater the tax ratio is below 1.98, the greater the flexibility for the municipality in future years.

The effect on economic development is an important consideration in the review of tax policy in the commercial and industrial property classes, as well as other property classes. Schedule "H", <u>attached</u>, evaluates and rates various different economic development strategies. The schedule suggests that tax policy may have significant advantages over other economic development strategies.

#### Tax Ratios – Multi-residential Property Class (Recommendation A)

Schedule "A" indicates the multi-residential ratio in the City of London is below the average and the median when compared to the other municipalities listed. In December

2016, the Provincial Ministry of Finance issued a letter indicating that the Province had concerns with respect to the taxation of multi-residential properties, and it was their intention to study the issue and consult with various stakeholders beginning early 2017. In the letter, the Province indicated its intention to restrict tax increases in the multi-residential property class in 2017, in any municipality where the 2017 tax ratio was greater than 2.0. London was not subject to this restriction since its tax ratio was below the 2.0 level. The same tax ratio restriction for the multi-residential property has been in place for 2018 and 2019, and is in place for 2020.

Since the year 2000, the City has decreased its multi-residential tax ratio from 2.3852 to 1.749100, as of 2019. This has been the result of adopting a long term policy to equalize non-residential tax ratios, and also to equalize municipal tax increases in the residential and multi-residential property classes in particular years. In 2015, the City equalized non-residential tax ratios. In 2016, 2017, 2018, and 2019 the City equalized municipal tax increases in the residential and multi-residential property classes and decreased the multi-residential property class tax ratio below the commercial and industrial levels.

For 2020, it is recommended that Council adopt the same policy as adopted in 2016, 2017, 2018 and 2019 to equalize municipal tax increases in the multi-residential and residential property classes. This approach is reflected in options A, AB1, AB2, and B on Schedule "B", which results in a multi-residential tax ratio of 1.711880.

#### Tax Ratios – New Multi-residential Property Class (Recommendation A)

On July 5 2017, the Minister of Finance signed a regulation requiring all municipalities to establish a new multi-residential property class with a tax ratio range between 1.0 and 1.1. The regulation applied to any multi-residential property in Ontario built or converted from a non-residential use, pursuant to a building permit issued after April 20, 2017. In accordance with this regulation, the City of London established a new multi-residential property class with a ratio of 1.0 in 2017. It is recommended that this ratio be continued for 2020. There was no property in the new multi-residential property class included on the assessment roll provided to the City of London at the end of 2018, but property has now appeared in the roll provided at the end of 2019 for 2020 taxation.

#### Farm Property Class Tax Ratio (Recommendation A)

The tax ratio for the farm property is set in accordance with Section 308.1 of the *Municipal Act, 2001*. Under the provisions of Section 308.1, the ratio is automatically reset to 0.25 every year, unless the municipality sets it at a lower level by by-law each year. The farm property class is a very small class in the City of London, and changes in the tax ratio for the farm class have no significant impact on any other property classes. In the past, the City has always followed a policy of setting the farm property class tax ratio at a level that would result in the farm class receiving the average municipal tax increase, subject to the 0.25 maximum in the legislation. After a review of farm tax ratios and farm tax rates in the Province, and in the vicinity of London, we are not recommending continuation of this policy for 2020. This issue was discussed in a previous report to Committee in October 2019 (staff report Vacant/excess Land Subclass Tax Reduction and Other Tax Policy Issues). It is recommended that the tax ratio for farmland in 2020 be the same as 2019 i.e. 0.102820.

In December 2017, the Ministry of Finance issued a letter indicating that beginning in 2018 it would permit the option of a 75% tax rate reduction on the first \$50,000 of assessment related to qualifying non-farm commercial activity at a farm property. At the time of the 2018 property tax billing, MPAC had not provided the City of London with a list of any eligible properties and the City did not utilize this option. The City has been

recently notified by MPAC that only one (1) roll number in the City qualifies for this special tax reduction. Participation in the program, however, is not recommended. Only one (1) property qualifies and tax mitigation is already being provided to farm land property owners through the establishment of tax ratios. The tax reduction on one (1) property would be less than \$1,000.

#### Landfill Property Class Tax Ratio (Recommendation A)

The City of London does not have any taxable property in the Landfill property class. It is, however, recommended that a ratio be established each year at the maximum permitted by legislation. Council would still have the ability to set a ratio at a lower level at any point in time, in the future, at its discretion if and when taxable assessment came into existence in the City. This approach will maximize the flexibility for ratio setting in this property class in the future. The maximum ratio permitted by legislation in 2020 is 2.818527 (Revenue neutral ratio x 1.05 or 2.684311 x 1.05). The ratio established in 2019 was 2.633590.

#### Pipeline Tax Ratio (Recommendation A)

Unlike the commercial, industrial, and multi-residential classes, the Province has not set any threshold tax ratio level or levy restriction with respect to the pipeline class. However, there are significant restrictions on increases in pipeline tax ratios set out in section 308 of the *Municipal Act*, 2001. It is therefore recommended that the tax ratio for the pipeline class not be changed for the year 2020.

#### Summary of Tax Ratio Recommendations for 2020 (Recommendation A)

In summary, for 2020 Civic Administration are recommending Council select option AB1 but would support the recommendation of option A or a tax ratio option that would be between and including option B as shown on Schedule "B". Schedule "B" indicates the alternative tax ratios and the <u>average</u> % increases in taxes in the various property classes, both including and excluding the education component of the property tax bill. For preparation of the 2020 Municipal Tax Ratio By-Law, Civic Administration has prepared the By-Law (<u>attached</u> as Appendix "A") utilizing Option AB1 which is similar with the option that was chosen in 2019. This option was also presented in the future tax policy report delivered to the February 18<sup>th</sup>, 2020 meeting of the Corporate Services Committee.

The percentages shown on Schedule "B" represent <u>average</u> tax changes only. In reality virtually no-one is exactly at the average. Most property owners will be slightly above or slightly below the average.

#### Property Tax Rate Calculation Adjustment

In 2020, the Province is permitting an optional technical adjustment in the calculation of levy increases required to be disclosed on tax bills (Ontario Regulation 75/01). The option would be appropriate in situations where the municipality has not adequately included provisions for future losses from assessment appeals, and similar adjustments in tax levies and budgets of previous years. This is not currently the situation in the City of London and we do not recommend the selection of this option. This option has been mentioned in letters to municipal treasurers from the Ministry of Finance dated December 21, 2016, December 22, 2017, April 9, 2019 and December 20, 2019.

#### Elimination of vacant/excess land subclass tax reduction beginning in 2020

In 2017, the Ministry of Finance announced that they were prepared to permit

Municipalities to end vacancy rebate programs and the subclass reductions for vacant and excess land in the commercial and industrial property classes. The legal mechanism for doing this is a regulation issued by the Minister. Many municipalities, including London, have taken action to phase-out vacancy rebate programs. The Minister of Finance filed a regulation on May 3<sup>rd</sup> 2018 that reduced the vacancy rebate to 15% from 30% in 2018 and ended the vacancy rebate in London beginning January 1<sup>st</sup> 2019.

On October 29<sup>th</sup> 2019 Council passed a resolution requesting that the Ontario Minister of Finance file a regulation to eliminate the 30% tax rate reduction for land in the Commercial and Industrial property classes, when the land is categorized in the subclasses of vacant or excess land, beginning in 2020. The Council resolution will mirror the Provincial government treatment for education property taxes in these two (2) subclasses beginning in 2020.

At this point in time the requested resolution has not been filed by the Minister but we anticipate the resolution will be filed in April 2020, and will apply to the year 2020 and subsequent years. All tax calculations in this report have been done on the assumption the Minister will file the regulation.

#### Ongoing Reductions in Business Education Taxes

In April 2005, London City Council passed a resolution requesting that the Ontario Minister of Finance "review the entire process for setting education property tax rates for business properties, and that education tax rates for properties in the City of London be lowered to a level consistent with other municipalities in the Province". The resolution, along with a letter from the Mayor, went to the then Minister of Finance, Greg Sorbara, in April 2005. After a letter from the Minister was received in June 2005, the Mayor followed up with a second letter in February 2006 to new Minister of Finance, Dwight Duncan. In 2007, Dwight Duncan announced that major tax reform would occur in the area of education property taxes, along the lines requested by the City beginning in 2008, and would be phased-in over the seven (7) year period ending in 2014. As a result of this major reform, the Province had indicated that by the year 2014, when the phase-in was complete, education property taxes in the City of London would be reduced by \$33.6 million each year in the future from what they otherwise would have been.

However, the Ontario budget introduced to legislature on March 27, 2012, announced that business education property tax cuts previously scheduled for 2013 and 2014 would be deferred until 2017 and 2018 after Ontario was returned to a balanced budget. It is estimated that the reductions that the 2012 Provincial budget deferred would have been in excess of \$10 million in the City of London and represent about 20% of the education property taxes in the commercial and industrial property classes in the City. The City Treasurer sent a report to the Corporate Services Committee meeting of April 3, 2018 (Year 2018 Tax Policy) recommending that the Mayor be requested to send a letter to Minister of Finance requesting clarification as to the current status of the business education tax cuts. This recommendation was approved by Council.

In October 2018, Mayor Brown sent a letter to then Minister of Finance, Vic Fedeli, requesting clarification status of the promised reduction in Business Education Property Tax rates. The Minister of Finance responded in December 2018. In their letter they appeared to acknowledge that the current system for setting business education property tax rates is inequitable and the intentions of the previous government to address the situation were never fully implemented. They did not specifically indicate how the current government planned to proceed in the future. It was noted however that in the letter issued to all Municipal Treasurers, dated December 20, 2019 from the

Assistant Deputy Minister, the lower business education tax rate that was promised by the previous Liberal government is identified as the "BET Target" (Business Education Taxes).

On May 8, 2019 City Council passed a motion requesting Mayor Ed Holder "send a letter to the Minister of Finance, on behalf of City Council, requesting further clarification with respect to the long term intention of the current government with respect to the business education property tax cuts that were temporarily frozen with the 2012 Provincial budget."

# <u>Utilizing Options Available to Bring an End to Capping Tax Increases and Clawing Back Tax Decreases in the Commercial, Industrial and Multi-Residential Property Classes (Recommendations B, C, and D)</u>

Since major Province wide tax reform began in 1998, the Province has mandated a complex system of capping tax increases and clawing back tax decreases in the commercial, industrial and multi-residential property classes. Civic Administration have long believed the entire system was unfair to taxpayers, damaging to economic development and administratively onerous. Based on consultation with municipal representatives, including the City of London during 2008, the Province provided increased flexibility under the business tax capping program for 2009 and future years. It appears the Province decided to provide this very significant increase in flexibility to municipalities because of the new tax mitigation provided by the four (4) year phase-in of assessment values, beginning with the reassessment for 2009 taxation.

Beginning in 2009, municipalities had options to permanently remove properties from the capping and claw-back system once they have reached their current value assessment (CVA) level taxes. Municipalities can have these options apply to all capped property classes or limit the options to individual capped classes. For 2020, this means that any property which had paid CVA taxes or higher (i.e. clawed back) in 2019 can be excluded from having a tax increase capped in 2020. At the same time, a property that had a tax increase capped in 2019 cannot have a tax decrease clawed back in 2020, if the options are chosen. Preliminary calculations indicate that continuing to fully utilize the options available could completely end capping in the year 2020 and future years.

Beginning in 2016 and for future years where there are no properties taxed at less than 50% of CVA levels, a municipality may enter a four (4) year phase out program to end capping from reassessment related changes prior to 2017. London was eligible for this program in the industrial class for 2016. In 2019, London was eligible in the commercial and multi-residential property classes.

Beginning in 2017, the Province provided new flexibility to exclude vacant land from the phase-out eligibility criteria for capping of reassessment related changes prior to 2017. In addition, beginning in 2017, and for future years, municipalities have the option to limit capping protection only to reassessment changes prior to 2017. For municipalities that select this option, reassessment related increases, beginning in 2017, would not be subject to the cap. These options would be implemented through municipal by-laws.

We recommend that Council take advantage of all opportunities to bring the capping of tax increases and the clawing back of tax decreases to an end in 2020 and future years. In 2019, the City utilized all options available to exclude properties from future capping and no problems were encountered. The continued implementation of all available options to end capping in 2020 will require Council to pass by-laws in accordance with the *Municipal Act*, 2001. We believe any continuation of the capping program is unnecessary because of the four (4) year phase in of assessed values that began in

2009. Capping can create a situation where some properties never pay their share of the levy in the property class based on market values and uniform tax rates for the various property classes. As can be seen on the <u>attached</u> Schedule "F", capping and clawing back adjustments to commercial and industrial property taxes were in excess of \$10 million in 1998 and 2001, and now in 2020 can reach a point of total elimination.

## By-law to Set a Formula for Calculating Caps in the Commercial, Industrial and Multi-Residential Property Classes (Recommendation E)

Since 2008, Council has adopted several options permitted by Section 329.1, of the *Municipal Act, 2001*, to reduce the amount of capping of tax increases and clawing back of decreases in the commercial, industrial and multi-residential property classes. The selected options were as follows:

- capping at 10% of previous years taxes instead of the 5% minimum;
- utilizing the option of 10% of previous years CVA taxes where applicable;
- reducing cap adjustments equal to or less than \$500 to nil; and
- new construction was taxed without any cap adjustment.

The use of all these options significantly reduced the amount of clawing back of decreases as can be seen on Schedules "E" and "F" of this report. No significant problems or issues were encountered by the City Tax Office in past billings as a result of utilizing the above options. The use of these option will bring an end to capping in 2020.

It is therefore recommended that a by-law be enacted under section 329.1 of the *Municipal Act*, 2001 for 2020 and subsequent years, where applicable, to adopt the capping formula described above.

## No By-law Recommended to Claw back a Portion of Tax Decreases in Capped Property Classes

For 2020, and future years, with the end of tax capping in the commercial industrial and multi-residential property classes, it will no longer be necessary to consider and claw back of property tax decreases in those property classes.

#### Phase-In Program for Residential Property Class not recommended

All residential properties in the City of London were reassessed for 2017 taxation based on January 1, 2016 market values. The January 1, 2016 market values are being phased-in over a four (4) year period from 2017 to 2020 as required by Provincial legislation. Assessment related tax changes occurring in the residential class have been analyzed and compared to the 2013, 2009, 2006, 2004, 2003, 2001 and 1998 reassessments. The results of this analysis are shown on Schedule "G" (attached).

Assessment related tax changes exclude tax increases that result from levy increases. The levy increase is imposed in addition to assessment related tax changes (increases and decreases).

As can be seen from Schedule "G", the amount of assessment related decreases and increases for 11 years (2009 – 2020) are significantly less than the increases and decreases which have occurred in reassessments in the City prior to 2009. The reason for this is that for the first time in 2009, the Province included a phase-in of all reassessment changes on the 2009 assessment roll. This phase-in process will be continued over 2017 to 2020. For 2020, residential properties will be valued on the roll at their January 1, 2016 value.

For 1998 and subsequent reassessments up to and including 2013, Council decided that, under section 318 of the *Municipal Act, 2001*, a phase-in of assessment related tax changes was not necessary. Based on the above data and the fact that the Province has already instituted a four (4) year phase-in of assessment values on the roll, it appears clear that no further tax mitigation in the residential class is necessary. In summary, based on our analysis of the reassessment data and the existence of a four (4) year phase-in of values on the assessment roll, we believe any additional phase-in of the residential class, under section 318 of the *Municipal Act, 2001*, is not warranted.

#### Comments on Unusual Tax Increases after a Reassessment

Whenever a general reassessment occurs, there will always be a small number of large tax increases. Inevitably, when over 140,000 properties are valued, some errors and inaccuracies will occur. If a property is overvalued when a reassessment occurs, the remedy is to contact MPAC and have the valuation corrected or appeal the assessment in accordance with the provisions of the *Assessment Act*.

When a property is undervalued or incorrectly classified to the taxpayers benefit, the taxpayer has no financial incentive to have the error or inaccuracy corrected. The error or inaccuracy will typically be corrected at the next reassessment and surface as an unusually large increase. Focusing on the amount or percentage of the increase obscures the real cause of the tax change (i.e. an inaccuracy in the valuation or classification of the property in the past). Phasing-in or capping taxes in these situations only perpetuates errors and inaccuracies in the assessment system and represents a major departure from the fundamental principle of fairness (i.e. that every property owner within a class pays the same tax rate on the market value of his or her property).

#### **Review of Tax Policy is an Annual Requirement**

Subsection 308(4) of the *Municipal Act, 2001* requires that all single tier municipalities "shall pass a by-law in each year to establish the tax ratios for that year for the municipality". Tax ratios determine the distribution of tax levy between the different property classes.

Every four (4) years a general reassessment of the Province occurs in accordance with section 19.2 of the *Assessment Act*. Although reassessments have no effect on the total amount of the tax for any year, reassessments can affect the way the tax burden is distributed between the different property classes.

The setting of tax ratios permits Municipal Councils to control the way tax burden is distributed between property classes. Tax ratios need to be reviewed every year to determine how the current year's tax burden is being imposed on the different property classes, and how the tax ratios in each year compare to the level of tax ratios in other municipal jurisdictions in the Province. The setting of tax ratios by municipal Councils is subject to legislation contained in part VIII of the *Municipal Act, 2001* and various regulations filed in accordance with that part of the *Act*.

Provincial tax policy, with respect to education property taxation, is also relevant to tax policy determination at the municipal level. Each year the Ministry of Finance for the Province sends a letter to all municipalities advising them of any changes to municipal tax policy restrictions on municipalities. The Province normally provides in the letter information about provincial education property tax rates and education property tax policy decisions. All the information in this annual letter will be relevant to tax ratio setting at the municipal level.

#### **Future Tax Policy Strategy**

Moving forward, based on what is known to date, Civic Administration will continue to bring forward annually Tax Policy options for Municipal Council's consideration in keeping with the four (4) directions that have been set out in this report, subject to any further direction, being mindful of the impact of reassessment and competiveness of tax ratios in comparison with other Ontario municipalities. In light of reassessment being postponed, and the economic impact on non-residential properties (commercial and industrial property classes) as result of COVID-19, it would be appropriate to hold off on setting a long term strategy until Civic Administration is able to understand what the next reassessment would mean to property classes along with the impact that COVID-19 will have on the community. It is anticipated that new reassessment values will apply beginning with the 2022 taxation year, however the new valuation base year has not yet been decided. Should the reassessment values be made available mid-2021, Civic Administration would look to update Municipal Council as to what the impacts are by property class at that time.

#### **SUMMARY**

Schedule "A", <u>attached</u>, is a very important schedule. It shows how London's tax ratios compare to other municipalities in the Province. This schedule indicates that the City of London currently has tax ratios in place which are competitive with other major cities in Ontario.

Schedule "B" <u>attached</u> shows the various options recommended for Council's consideration with respect to setting 2020 tax ratios. The schedule shows the average % increase in each property class, both including and not including the education component of the property tax. Schedule "B" also shows the ratios required to implement each identified alternative. Civic Administration has prepared the 2020 Municipal Tax Ratio By-Law using Option AB1 which reduces tax ratios for multiresidential properties, commercial properties, and industrial properties.

If Council adopts the capping options recommended in this report, the year 2020 will be the first year since 1997 that no properties in the commercial industrial or multi-residential property classes will be subject to capping or clawing-back. This means that in all property classes all properties will be subject to one uniform tax rate applicable to all properties, within the property class, and capping and clawing back tax changes in the City of London will be completely ended in future years.

Every four (4) years, Ontario undergoes a province-wide reassessment by MPAC. The next reassessment was to be based on market values as of January 1, 2019 and was to start to affect property taxation beginning in 2021. Whenever there is new reassessment it is possible that taxes can shift between property classes in a pattern that is different from the previous four (4) year cycle. However, due to COVID-19, the reassessment that was set to begin in 2021 has been postponed.

## SCHEDULE "H" Rating/Evaluation of Economic Development Strategies - Municipalities

Economic Development Issue	Development Charge Grant	Water Pricing Rate Structure	Community Improvement Plans	Property Tax Ratios
Broad focus - all industry types in London -old and new, large and small	Low	Low	Low	High
Long term time frame in business planning	Low	High or Low depending water consumption of industry type	Low	High for all industry types
Significance in business planning and workforce expansion	High or Low dependent on new building construction	High or Low depending water consumption of industry type	High or Low depending on location	High for all industry types
Effect on on ongoing competitiveness	Low	High or Low depending water consumption of industry type	Low	High for all industry types
Effect on Municipal Capital Financing	Negative	Negative (consumption effect)	negative	Neutral
Impact on Industry retention	Low	High or Low depending water consumption of industry type	Low	High
Promotion of diversification in economic development	Medium to Low	Low	Medium to Low	High (ends bias against industrial development vs. commercial)
Potential for reduction in existing business vacancies in buildings	Low to None	Low to Medium	Medium to Low	High

Additional Information	]			
Basis of charge	Square metre of gross floor area	Per cubic metre of water usage	Location	Current dollar value of land and building
2019 charge per unit	\$278.74/sq.m. commercial - industrial exemption	\$2.2506 to \$0.9391/cu. m in declining blocks for water charge - \$2.0003 to \$0.8344/cu. m in declining blocks for wastewater charge	Various	2.264112%

Strategies described in this table are not alternative strategies.

Each strategy and/or policy stands on its own and should be designed and implemented on logical, equitable principles that are consistent with Council's objectives.

Principles relevant to tax ratio policy are that City should have a competitive property tax system and the system should be equitable and logical.

Only the tax ratio strategy/policy has a broad and long term focus that would apply to all industrial properties in the City and all key sector clusters in the industrial class.

#### **APPENDIX "A"**

Bill No. 2020

By-law No.

A by-law setting tax ratios for property classes in 2020.

WHEREAS section 308 of the *Municipal Act, 2001,* as amended, provides that the council of every single tier municipality in each year shall pass a by-law in each year to establish the tax ratios for that year for the municipality;

THEREFORE the Municipal Council of The Corporation of the City of London enacts as follows:

#### 2020 MUNICIPAL TAX RATIO BY-LAW

1. The tax ratios as set out in column 3 of Schedule "A" of this by-law are hereby established for 2020 taxation.

#### **Definitions - Realty Tax Classes and Realty Tax Qualifiers**

2. For purposes of this by-law, Realty Tax Classes and Realty Tax Qualifiers (Taxable/PIL) under the Ontario Fair Assessment System (OFAS) are defined in Schedule "B" of this by-law and are indicated in the first two characters of the codes in column 2 of Schedule "A" of this by-law. Where there is more than one code in column 2 of Schedule "A" the codes are separated by a comma.

#### **Municipal Option to Apply**

**3.** A single percentage of 30% is hereby adopted in accordance with subsection 313(4) of the *Municipal Act*, 2001 instead of the percentages set out in paragraphs 2 to 5 of subsection 313(1) for the year 2020 and future years.

#### Administration of By-law

4. The administration of this by-law is assigned to the City Treasurer who is hereby authorized and directed to do such things as may be necessary or advisable to carry out fully the provisions of this by-law.

#### Commencement

5. This by-law comes into force on the day it is passed.

PASSED in Open Council on April 21, 2020.

Ed Holder Mayor

Catharine Saunders City Clerk

First Reading –April 21, 2020 Second Reading – April 21, 2020 Third Reading – April 21, 2020

## Definitions of Realty Tax Classes and Realty Tax Qualifiers (Taxable/PIL) Under OFAS

Realty Tax Class (RTC)	Description	Realty Tax Qualifier (RTQ)	Description
Α	Theatre	А	Taxable: General Vacant Land
C, X	Commercial	В	Taxable: General Excess Land
D, Y	Office Building	D	Taxable: Education Only
Е	Exempt	F	Payment-In-Lieu: Full
F	Farm	G	Payment-In-Lieu: General
G	Parking Lot	Н	Taxable: Shared Payment-in-Lieu
I, J	Industrial	J	Taxable: Vacant Land, Shared Payment-in-Lieu
L, K	Large Industrial	K	Taxable: Excess Land, Shared Payment-in-Lieu
M	Multi-Residential	М	Taxable: General
N	New Multi- Residential	Р	Taxable Tenant of Province
0	Other	Q	Payment-in-Lieu: Full Excess Land, Taxable Tenant of Province
Р	Pipeline	Т	Taxable: Full
Q	Professional Sports Facility	U	Taxable: Excess Land
R	Residential	V	Payment-in-Lieu: Full Excess Land
S, Z	Shopping Centre	W	Payment-In-Lieu: General Excess Land
Т	Managed Forest	X	Taxable: Vacant Land
U	Utility Transmission / Distribution	Υ	Payment-In-Lieu: Full Vacant Land
W	Railway Right-of- Way	Z	Payment-In-Lieu: General Vacant Land
Н	Landfill	1	Taxable: Farmland 1
		2	Payment-In-Lieu: Full, Farmland 1
		3	Payment-In-Lieu: General, Farmland 1
		4	Taxable: Farmland II
		5	Payment-In-Lieu: Full, Farmland II

Note that each RTC will be applied in combination with an appropriate RTQ.

All Realty Tax Classes and Realty Tax Qualifiers are letters or numbers.

Where there is more than one Realty Tax Class or Realty Tax Qualifier in a column they are separated by a comma.

Payment-In-Lieu: General,

Farmland II

#### **APPENDIX "B"**

Bill No. 2020

By-law No.

A by-law to opt to have Section 8.0.2 of Ontario Regulation 73/03, as amended, apply within the City of London for the year 2020 and subsequent years to exempt certain properties in the commercial classes, industrial classes and multi-residential property class from the application of Part IX of the *Municipal Act*, 2001.

WHEREAS in accordance with Ontario Regulation 73/03, Council has certain options with respect to the calculation of the amount of taxes for municipal and school purposes payable in respect of property in the commercial classes, industrial classes, or multi-residential property class for 2020 or a subsequent taxation year.

THEREFORE the Municipal Council of The Corporation of the City of London enacts as follows:

- 1. Section 8.0.2 of Ontario Regulation 73/03, as amended, shall apply in the City of London for the year 2020 and subsequent years to certain properties as specified in Section 2 of this by-law.
- 2. Any property in the commercial classes, the industrial classes or the multi-residential class in the City of London shall be exempt from Part IX of the *Municipal Act, 2001* for the year 2020 if the property meets any of the conditions specified in paragraphs 1, 2, or 3 of Subsection 8.0.2(2) of Ontario Regulation 73/03, as amended.

#### **Administration of By-law**

3. The administration of this by-law is assigned to the City Treasurer who is hereby authorized and directed to do such things as may be necessary or advisable to carry out fully the provisions of this by-law.

#### Commencement

4. This by-law comes into force on the day it is passed.

PASSED in Open Council on April 21, 2020.

Ed Holder Mayor

Catharine Saunders City Clerk

First Reading – April 21, 2020 Second Reading – April 21, 2020 Third Reading – April 21, 2020

Bill No. 2020

By-law No.

A by-law to exercise the option to establish a phase out and end to the capping of property taxes under Part IX of the *Municipal Act, 2001* for eligible property classes.

WHEREAS in accordance with Ontario Regulation 73/03, Council has certain options with respect to the calculation of the amount of taxes for municipal and school purposes payable in respect of property in the commercial, industrial, multi-residential or landfill property classes for 2020 or a subsequent taxation year.

THEREFORE the Municipal Council of The Corporation of the City of London enacts as follows:

- 1. All the options described in sections 8.2 and 8.3 of Ontario Regulation 73/03 shall apply in the City of London for the year 2020 and subsequent years to all properties in certain property classes as specified in section 2 of this by-law.
- 2. The Industrial property class, the Commercial property class and the Multiresidential property class shall be subject to this by-law.
- 3. The City of London elects under subsection 8.3(2) to exclude vacant land in the determination of eligibility for the application of section 8.3 of Ontario Regulation 73/03.

#### **Administration of By-law**

4. The administration of this by-law is assigned to the City Treasurer who is hereby authorized and directed to do such things as may be necessary or advisable to carry out fully the provisions of this by-law.

то:	CHAIR AND MEMBERS CORPORATE SERVICES COMMITTEE MEETING ON APRIL 14, 2020
FROM:	ANNA LISA BARBON MANAGING DIRECTOR, CORPORATE SERVICES AND CITY TREASURER, CHIEF FINANCIAL OFFICER
SUBJECT:	YEAR 2020 EDUCATION TAX RATES

#### RECOMMENDATION

That, on the recommendation of the Managing Director, Corporate Services and City Treasurer, Chief Financial Officer:

- a) a By-law to levy education tax rates for 2020 **BE INTRODUCED** at the Council meeting of April 21, 2020, attached as <u>Appendix "A"</u>.
- b) the Mayor **BE REQUESTED** to send a letter to the Minister of Finance on behalf of City Council requesting further clarification with respect to the long term intention of the current government, with respect to the business education property tax cuts that were temporarily frozen with the 2012 Provincial budget.

#### PREVIOUS REPORTS PERTINENT TO THIS MATTER

Corporate Services Committee, April 30<sup>th</sup>, 2019, Item # 2.2, Year 2019 Education Tax Rates

Corporate Services Committee, April 3<sup>th</sup>, 2018, Item # 2.5, Year 2018 Education Tax Rates

Corporate Services Committee, April 25<sup>th</sup>, 2017, Item # 3, Year 2017 Education Tax Rates

Corporate Services Committee, April 26<sup>th</sup>, 2016, Item #10, Year 2016 Education Tax Rates

# **BACKGROUND**

On January 22, 2020, the Ontario Minister of Finance filed Ontario Regulation 6/20 to set education property tax rates for 2020. The regulation sets out the following uniform tax rates for all properties in the residential, multi-residential, farm, and managed forests property classes in Ontario.

Residential and Multi-Residential Classes 0.153000% Farm and Managed Forests Classes 0.038250%

Education tax rates for the above property classes have been reduced 5.0% by the Province to offset the reassessment change in assessed values across the Province.

The regulation also sets out property tax rates applicable to other property classes. The tax rates for other property classes are, however, not yet uniform across the Province. In March 2007, the Province announced that it would be phasing in uniform rates for commercial and industrial property classes over an eight year period ending in 2014. Previously, the Province had a system that maintained education tax rates at historical levels in place at the time of major property tax reform in 1998. The transition to the new system would have meant by the year 2014 London businesses should have been paying \$33.6 million dollars less in education property taxes every year compared to what they would otherwise be paying.

In the Ontario budget introduced in legislature on March 27<sup>th</sup>, 2012, it was announced that business education property tax cuts previously scheduled for 2013 and 2014 would be deferred at least until 2017-2018 and after Ontario had returned to a balanced budget. These reductions were originally introduced to correct historical inequities in education tax rates, which the City of London and others had drawn to the attention of the Province. It is estimated that the reductions that were deferred until Ontario returned to a balanced budget would be in excess of \$10 million in total for commercial and industrial properties in London.

In April 2017, the Ontario Minister of Finance announced that the Provincial budget for 2017 to 2018 had returned to balance. No announcement, however, was made with respect to the unfreezing of the business education tax cuts originally frozen with the 2012 provincial budget.

In the report on Education Taxes submitted to the Corporate Services Committee on April 3<sup>rd</sup> 2018, it was recommended that the Mayor send a letter to the then Minister of Finance, Vic Fedeli, to request clarification with respect to the current status of the business education tax cuts. In October 2018, then Mayor Brown sent a letter to the Minister of Finance requesting clarification status of the promised reduction in Business Education Property Tax rates. The then Minister of Finance Vic Fedeli responded in December 2018.

In his letter Mr. Fedeli appeared to acknowledge that the current system for setting business education property tax rates is inequitable and the intentions of the previous government to address the situation were never fully implemented. However, he did not specifically indicate how or if the current government planned to proceed with the promised cuts in the future. If the Province had fully implemented the tax cuts originally promised in 2012, in 2019 it would have reduced most commercial and industrial property taxes in the City of London in excess of 7%.

In our April 30<sup>th</sup>, 2019, 2019 Education Tax Rates report to the Corporate Services Committee, it was recommended that a letter again be sent by the Mayor to clarify what the long term intention of the current government is with respect to business education property tax rates in the Province. This was approved, and Mayor Holder subsequently sent a letter to Minister of Finance Rod Phillips dated July 16<sup>th</sup>, 2019. A copy of that letter is attached as <u>Appendix "B"</u>.

In the letter issued to all Municipal Treasurers dated December 20, 2019, attached as <u>Appendix "C"</u>, from the Assistant Deputy Minister of Finance, advising of important provincial property tax policy decisions for 2020, the lower business education tax rate that was promised by the previous Liberal government is identified as the "BET Target". "BET" is identified as an abbreviation for Business Education Tax rate and the use of the term target would seem to imply an intention to reduce rates that are above the target, as is the case in London. The letter gives no indication as to if and when the target will be achieved in the future.

As of mid-March 2020 it is understood that no response has been received by Mayor Holder from the Minister of Finance. We have contacted the staff at the Ministry of Finance and it is our expectation that a letter from the Minister will be forthcoming.

New construction, in the commercial and industrial property classes, is already subject to the lower uniform Provincial education tax rate (i.e. BET Target), provided the application for the building permit was made after March 22, 2007 and certain other criteria are met. For 2020, the new construction rate has been set at 0.98% to reflect the phase in of the 2020 reassessment. In 2019, the rate was 1.03%.

Ontario Regulation 6/20 also changed the way vacant and excess commercial and industrial land is taxed, for education purposes for 2020 and subsequent years. Prior to 2019, vacant and excess land in the commercial and industrial classes were subject to an education tax rate that was discounted by 30%. The regulation changed the discount to 15% in 2019 and eliminates the discount in 2020.

Education tax rates for 2020 for the other property classes for the City of London that have been set out by regulation are as follows:

 Commercial
 1.250000%

 Industrial
 1.250000%

 Pipeline
 1.250000%

 Landfill
 1.250000%

 Small Scale on Farm (Commercial and Industrial)
 0.245000%

# SUMMARY

In summary, it is recommended that a by-law be introduced prior to the final billing for 2020 to levy education tax rates as required by Provincial regulation. It is also recommended that Council direct the Mayor to send a letter to the Minister of Finance on behalf of City Council. The intention of the letter is to request further clarification with respect to the current status of the business education tax cuts that were temporarily frozen with the 2012 Provincial budget and an indication as to when it is anticipated the cuts that were deferred will occur.

Bill No. 2020

By-law No.

A by-law levying rates for 2020 for school purposes in the City of London.

WHEREAS by section 257.7 of the *Education Act*, the Municipal Council is required to levy and collect upon all the residential property and business property in the City of London the tax rates prescribed under section 257.12 of the said *Act* for school purposes;

THEREFORE the Municipal Council of the Corporation of the City of London enacts as follows:

#### 2020 SCHOOL RATE BY-LAW

#### **School Rates**

1. The rates set out in column 3 of Schedule "A" of this by-law are hereby levied for 2020 upon all the property rateable for school purposes in the City of London.

# **Definitions - Realty Tax Classes and Realty Tax Qualifiers**

2. For purposes of this by-law, Realty Tax Classes and Realty Tax Qualifiers (Taxable/PIL) under the Ontario Fair Assessment System (OFAS) are defined in Schedule "B" of this by-law and are indicated in the first two characters of column 2 of Schedule "A" of this by-law. Where there is more than one code in column 2 of Schedule "A" the codes are separated by a comma.

#### **Administration of By-law**

3. The administration of this by-law is assigned to the City Treasurer, Chief Financial Officer who is hereby authorized and directed to do such things as may be necessary or advisable to carry out fully the provisions of this by-law.

#### Commencement

4. This by-law comes into force on the day it is passed.

PASSED in Open Council on April 21, 2020.

July 16, 2019

The Honourable Rod Phillips Minister of Finance Frost Building South, 7<sup>th</sup> Floor 7 Queen's Park Cres. Toronto, ON M7A 1Y7

Dear Minister Phillips,

Re: Business Education Property Tax Rates in Ontario

Thank you for the letter to the former Mayor of the City of London regarding business education property tax rates dated December 27<sup>th</sup>, 2018. The Council of the City of London shares your government's commitment to "making Ontario a premier destination for job creation investment, entrepreneurship and growth" and "exploring all possible avenues to make life more affordable for Ontario families and businesses." The Council of the City of London endeavours to promote policies and actions within its own jurisdiction that help achieve these goals.

We believe, however, that current provincial tax policy with respect to setting business education property tax rates is a significant factor that is negatively affecting economic development and conditions in London and the surrounding region. The City of London has been contacted directly by a Corporation that is one of Ontario's largest commercial property owners. The Corporation has noticed the disparity in commercial education property tax rates on their own different properties within the Province. Their representatives met with City finance staff to discuss what could be done about this problem in our region.

The Council of the City of London has been raising its concerns with respect to inequities related to Business Education Property Tax Rates in Ontario since 2005. In 2007 the Province did clearly acknowledge the problem and indicated it would move all business properties to an equitable system with a uniform property tax rate over a seven year period from 2008 to 2014. As you are aware, the adjustments scheduled for 2013 and 2014 never occurred. The result is that in 2019, commercial properties in the City of Toronto pay an education tax rate of 1.03%, while

300 Dufferin Avenue P.O. Box 5053 London, ON Canada N6A 4L9

CITY OF LONDON T.519.661.4920 F.519.661.5308 mayor@london.ca LONDON.CA

# London

#### **APPENDIX "B"**

most London commercial properties pay 1.29%. This is a rate difference of 25% in the education portion of the tax bill. In 2019, the education portion of a commercial or industrial property tax bill in London is about 36% of the total bill.

At its meeting on May 7<sup>th</sup>, 2019 the current Council of City of London passed a resolution asking that I write to you requesting clarification as to what the long term intention of your government is with respect this important issue. Your letter of December 27<sup>th</sup>, 2018 seems to acknowledge that the current system is not equitable but does not identify any specific actions or timetable that the Province may have under consideration to address the problem. We note that the letter from your Assistant Deputy Minister to Municipal Treasurers dated April 9<sup>th</sup>, 2019, concerning various tax policy issues for 2019, does identify a uniform "Business Education Tax Target" for the Province. The letter, however, does not give any indication as to when the target will be reached or any specific plan to achieve the target in the future.

I am kindly requesting clarification as to the long term intention of your government with respect to the business education tax target and the business education tax cuts that were temporarily frozen with the 2012 Provincial Budget.

Sincerely,

Ed Holder Mayor, City of London

c. The Honourable Jeff Yurek, M.P.P. (Elgin-Middlesex-London)

Le français suit l'anglais.

December 20, 2019

Dear Municipal Treasurer / Clerk-Treasurer:

I am writing to advise you of important decisions made by the Minister of Finance for the 2020 taxation year related to education property tax rates and municipal flexibility in setting property tax policy.

Please note that all these decisions will be reflected in the Online Property Tax Analysis (OPTA) system to support municipal property tax analysis and policy implementation.

The Province will notify municipalities when regulations implementing the property tax policy decisions are in place.

#### **Education Property Taxes**

To assist municipalities with their budget planning, draft education property tax rates for 2020 are attached. The province-wide residential education property tax rate and the target and ceiling business education tax (BET) rates are summarized in the following table. The Province will notify municipalities when these rates have been set in regulation.

	<b>2019 Rates</b>	2020 Rates
Residential	0.161%	0.153%
BET Target	1.03%	0.98%
BET Ceiling	1.29%	1.25%

In response to municipal suggestions, the operators of the OPTA system have worked with municipalities to enhance the system through the implementation of a new education property tax module in OPTA. Beginning in 2020, the module will help municipalities calculate the total remittance of education property taxes and reconcile any in-year adjustments to school boards. Further details on this enhancement, including training and other supports, will be available from OPTA shortly. Should you have any questions concerning the OPTA system, please contact the OPTA help desk at 416-591-1110 or 1-800-998-5739, ext 300.

#### **Business Vacancy Rebate and Reduction Programs**

Municipalities will continue to have broad flexibility to modify their business vacancy rebate and reduction programs to better reflect local circumstances. The new submission dates to notify the Minister of changes effective for 2020 and subsequent years are April 1, 2020 and August 1, 2020.

As noted in my letter of April 9, 2019, the phase-out of the education portion of the vacancy programs will be completed by 2020. This ensures that the education portion of the vacancy programs is consistent with the tax decisions of most of the municipalities that have implemented program changes. To avoid undue administrative burden for municipalities that submitted a notification to the Minister prior to January 1, 2019, the education property tax portion will continue to mirror municipal property tax policy decisions for those municipalities.

#### Railway Rights-of-Way

For the 2020 tax year, the property tax rates for railway rights-of-way will remain at 2019 levels. This means that the 2020 rates will be the same as rates communicated to municipalities on May 24, 2019 for the 2019 year.

#### **Municipal Property Tax Flexibility**

#### **Property Tax Rate Calculation Adjustment**

Municipalities continue to have the option to make an adjustment to the year-end assessment used in the notional property tax rate calculation. This technical adjustment ensures that when calculating notional tax rates, municipalities and the Province can address any unintended effects due to specific in-year property assessment changes, such as assessment appeal losses. The option to apply the adjustment is an annual municipal decision to be passed in by-law. Adoption of the adjustment is implemented by simply selecting the option through the OPTA system.

#### Tax Ratio Flexibility

Municipalities will continue to be provided with tax ratio flexibility to avoid most tax shifts that may occur between property classes as a result of phased-in reassessment impacts. Similar to 2019, municipalities that tax multi-residential properties at more than double the rate of residential properties will not be able to increase the multi-residential tax ratio. However, these municipalities will still be able to choose whether to use tax flexibility in response to reassessment-related tax shifts among other property classes.

#### Modified Levy Restriction

Municipalities with property classes subject to the levy restriction will continue to have the flexibility to apply a municipal tax increase to those classes of up to 50 per cent of any increase applied to the residential class. For instance, a municipality levying a 2 per cent increase in residential taxes could raise taxes on any restricted class by up to 1 per cent. A full levy restriction applies to multi-residential properties with a tax ratio greater than 2.0 in 2019.

If you have any questions related to these decisions, please contact Chris Broughton, Director of the Property Tax Policy Branch at Chris.Broughton@ontario.ca or 416-455-6307.

Sincerely,

Original signed by

Allan Doheny Assistant Deputy Minister Provincial-Local Finance Division

то:	CHAIR AND MEMBERS CORPORATE SERVICES COMMITTEE MEETING ON APRIL 14, 2020
FROM:	ANNA LISA BARBON MANAGING DIRECTOR, CORPORATE SERVICES AND CITY TREASURER, CHIEF FINANCIAL OFFICER
SUBJECT:	PROPERTY TAX DEFERRAL OPTIONS

#### RECOMMENDATION

That, on the recommendation of the Managing Director, Corporate Services and City Treasurer, Chief Financial Officer, Civic Administration **BE DIRECTED** to set final billings for the 2020 taxation year based on Option 1 as outlined in this report with the following due dates:

- a) For property tax installments: August 31st, 2020, October 31st, 2020, and December 15th, 2020.
- b) For those property owners on preauthorized payment: August 31<sup>st</sup>, 2020, September 30<sup>th</sup>, 2020, October 31<sup>st</sup>, 2020, November 30<sup>th</sup>, 2020, and December 15<sup>th</sup>, 2020.

#### **BACKGROUND**

On March 25<sup>th</sup>, 2020, in response to the COVID-19 pandemic, Municipal Council approved a number of items in response to residents' concerns with respect to their ability to meet financial obligations as result of the recent economic and health concerns brought on by the pandemic. One of the directions was:

"d) the Civic Administration BE DIRECTED to report back to the appropriate Standing Committee on the potential impacts, costs and the next steps with respect to further options that may be available to assist taxpayers, including the deferral of the June 30th tax installment."

At this time, Council will be looking to set Tax Policy for 2020, which is an opportune time to discuss the timing of final billings for property taxes. Currently there are 157,492 property tax accounts, of which 94,851 are billed, 35,427 are on preauthorized payment, and 27,214 are on mortgage payments. Typically, for final property tax billings, property owners are to pay the City in three (3) installments (billed) at the end of June, August, and October. If the property owner elected to be on the preauthorized payment (PAP), rather than paying in three (3) installments, the property owner is able to pay over five (5) installments at the end of the month, beginning in June and ending in October. Property owners who pay their taxes with their mortgage payments remit their share of taxes to their mortgage company based on their monthly mortgage payment. The mortgage company then remits payment of the taxes to the City on their behalf, in accordance with the installment deadlines.

# **EXPERIENCE AND DEVELOPMENTS**

As part of the emergent motion approved by Municipal Council on March 25th, Civic Administration was directed to waive interest and penalties for unpaid Interim 2020 Property Tax Installments that came due March 31, 2020, for a period of 60 days. Civic Administration has acted on this and observed that some property owners, where possible, elected to adjust their payments. Although the direction did not apply to payments already setup through pre-authorized payments (PAP), based on existing options available to property owners, some property owners elected to cancel their payments and switch to an alternate payment method.

Since March 25th, in recognition of COVID-19, Civic Administration has noted that other municipalities had or were in the process of implementing similar property tax deferral programs for interim billings. Also on March 27<sup>th</sup>, 2020, Civic Administration received a letter from the Ontario Minister of Finance, dated March 25, 2020, highlighting a number of property tax initiatives that were announced in Ontario's Action Plan: Responding to COVID-19, namely:

- The deferral of municipal remittances to school boards for the upcoming two quarters (June 30<sup>th</sup>, and September 30<sup>th</sup>) by up to 90 days;
  - o Payment 2 usually due on June 30 is now due September 30, 2020.
  - Payment 3 usually due on September 30 is now due December 15, 2020.
  - o Payment 4 remains due on December 15, 2020.
- The planned property tax reassessment for 2021 will be postponed.

#### **OPTIONS MOVING FORWARD**

Given the challenges that property owners may face as a result of COVID-19, the following options have been identified for consideration, which are applicable to all property owners.

The basis for all of these options is ensuring that final property tax billings are completed before the end of December 2020. As the municipal portion of each installment is at least \$130 million, not proceeding with the final billing prior to the end of December 2020 would result in the City experiencing a significant budget deficit and cash flow shortage. The Municipal Act requires that deficits must be funded at year end or recovered in the next budget.

#### Option 1 – Delay final installments by 60 days.

# What does this mean?

- Preauthorized payments would continue to be paid at the end of the month (except December) beginning in August and ending on December 15, 2020, resulting in the final installment being spread over five (5) payments
- For regular payments, installments would be pushed back to the end of month in August, and October, with the final payment being due December 15<sup>th</sup>.

# Pros of this option

- Cleanest approach to implement
- Consistent with current practice, but due dates pushed back 60 days.
- Maintains spread of PAPs over 5 periods.

# Cons of this option

• Regular payment date for final payment is at the middle of December, rather than end of month.

## Option 2 – Delay final installments by 90 days

#### What does this mean?

- PAP would continue to be paid at the end of the month (except December) beginning in September and ending on December 15, resulting in the final installment being spread over four (4) payments
- For regular payments, installments would be pushed back to the end of month in September, and November, with the final payment being due December 15<sup>th</sup>.

# Pros of this option

- Longer deferral of property tax payment
- Consistent with school board deferral.

# Cons of this option

- The City may be required to borrow from reserve funds to sustain its liquidity until property tax payments resume in September (see Financial Impact section for more details)
- PAP program will now be spread over four (4) payments instead of five (5) payments, meaning each payment will be larger.
- Compressed payment schedule for taxpayers, as the November and December installments would be due 2 weeks apart from each other possibly creating hardship.
- Regular payment date for final payment is at the middle of December, rather than end of month.

# Option 3 – Delay commencement of final installments by 90 days, however last payment now being made in November

#### What does this mean?

- Preauthorized payments would continue to be paid at the end of the month beginning in September and ending in November, resulting in the final installment being spread over three (3) payments
- For regular payments, installments would be pushed back to the end of month in September, October, and November.

#### Pros of this option

- Longer deferral of property tax payment
- · Consistent with school board deferral.

# Cons of this option

- The City may be required to borrow from reserve funds to sustain its liquidity until property tax payments resume in September (see Financial Impact section for more details).
- PAP program will now be spread over three (3) payments instead of five (5) payments, resulting in much larger payment amounts possibly creating hardship.
- Compressed payment schedule, as each installment would be due 1 month apart from each other, rather than the normal 2 month schedule.

# Other Considerations – Not involving final installments

#### Option 4 – Delay remaining two interim preauthorized payments by 60 days

# What does this mean?

Delay the April PAP payment to June, and delay the May PAP payment to July.
 (assumes final billing has been deferred by at least 60 days)

#### Pros

- Would delay the remaining payment of interim PAP payments automatically by 60 days.
- May prevent property owners from having to cancel their PAP payments, as this would automatically be delayed.

## Cons

- Creates an inequity between property tax payers who have already paid their taxes on March 31<sup>st</sup>, i.e. regular payments and mortgage payments.
- Written notice provision at least 10 calendar days before each and any change is required by law to property owners on the PAP program.

# Option 5 – Stop remaining interim PAP (two payments) and defer to final PAP calculation for final billings

## What does this mean?

 Remaining payments for April 30<sup>th</sup>, and May 29<sup>th</sup> will be cancelled and deferred (added) to the final PAP calculation.

#### Pros

 Will delay the remaining payment of property taxes for those on PAP to final billings.

#### Cons

- Creates an inequity between property tax payers who have already paid their taxes on March 31<sup>st</sup>, i.e. regular payments, and mortgage payers.
- Written notice provision at least 10 calendar days before each and any change is required by law to property owners on the PAP program.
- Payments deferred will be added on to final billings, making the final billings even larger.
- People on PAP with fixed incomes may wish to continue paying through their regular withdrawals.

Option 6 – Stop one of the April or May PAP payments and defer that payment to the final PAP calculation for final billings

# What does this mean?

 The PAP payment for April 30<sup>th</sup> will be cancelled and added to the final PAP calculation, however the May 29<sup>th</sup> PAP will still be processed.

#### Pros

• Will ensure equity amongst property tax payers. All property tax payers would have theoretically paid 40% of property taxes, prior to final installment.

#### Cons

- Payment deferred will be added on to final billings, increasing the amount of final billings.
- May increase or create confusion with property owners on PAP. (Selection of the May PAP payment for deferral to the final billing may reduce possible confusion associated with stopping in April and then continuing a payment in May.)
- People on PAP with fixed incomes may wish to continue paying through their regular withdrawals.

## FINANCIAL IMPACT

The most significant financial impact associated with the property tax deferral measures outlined in this report is on the City's cash liquidity, specifically by delaying cash inflows that would normally be received in the months of June and July. The City continues to incur the majority of expenses (with some exceptions), however it is also incurring additional costs to respond to the pandemic, as well as the loss of revenues, particularly user fees due to the closure of amenities and the cancellation of programming.

Civic Administration is actively monitoring the Corporation's cash flow on a daily basis and modelling various scenarios to assess the impact of COVID-19 on the City's cash resources. Based on the recommended Option 1 proposed in this report and assuming a gradual recovery of "normal" City operations by the end of June, it is anticipated that the City will have sufficient cash resources to sustain operations until property tax payments resume in August. It should be noted, however, that any further relief measures are likely to require temporary borrowing from the City's reserve funds in order to provide the necessary cash resources to sustain operations.

A further report outlining the projected financial impact of COVID-19 on the Corporation will be presented to the Strategic Priorities and Policy Committee on April 28<sup>th</sup>. This report will outline the various areas experiencing financial impacts associated with the pandemic, as well as other potential relief options that could be considered to further support the community.

#### **SUMMARY**

COVID-2019 is having worldwide impacts as seen in volatile financial markets and the overall economy. Liquidity is becoming a concern for many individuals and businesses. One tool that a municipality could use to ease the strain caused by this emergency is to defer property tax payments to provide time for other levels of government who have more tools at their disposal to support programs for businesses and citizens that are impacted by the pandemic. In weighing deferral options, the municipality needs to be mindful of its own cash flow as core essential services being provided are expected to be maintained.

Deferring the final billings for property tax payments by 60 days as outlined in Option 1 of this report, provides some relief, while at the same time maintains an amortization of five (5) payments for those property owners on preauthorized payments, rather than reducing that payment schedule down to four (4) or even three (3) payments. Property tax deferral is only one potential relief option for a municipality. A report to the Strategic Priorities and Policy later in April will also identify other tools that Municipal Council could consider to provide relief in the context of the City's anticipated financial impacts.

FROM:	ANNA LISA BARBON MANAGING DIRECTOR, CORPORATE SERVICES AND CITY TREASURER, CHIEF FINANCIAL OFFICER
SUBJECT:	2019 COMPLIANCE REPORT IN ACCORDANCE WITH THE PROCUREMENT OF GOODS AND SERVICES POLICY

#### **RECOMMENDATION**

That, on the recommendation of the Managing Director, Corporate Services and City Treasurer, Chief Financial Officer:

- a) As per the Procurement of Goods and Services Policy, Section 8.11 (c), an annual report of total payments where a supplier has invoiced the City a cumulative total value of \$100,000 or more in a calendar year, **BE RECEIVED** for information, attached as <u>Appendix "A"</u>;
- b) The administrative contract awards for Professional Consulting Services with an aggregate total greater than \$100,000, as per Section 15.1 (g) of the Procurement of Goods and Services Policy, decentralized from Purchasing and Supply that have been reported to the Manager of Purchasing and Supply and have been reviewed for compliance to the Procurement of Goods and Services Policy, **BE RECEIVED** for information, attached as <u>Appendix "B"</u>;
- c) The list of administrative contract awards for Tenders with a value up to \$3,000,000 that do not have an irregular result, as per Section 13.2 (c) of the Procurement of Goods and Services Policy, **BE RECEIVED** for information, attached as Appendix "C";
- d) The City Treasurer, or delegate, **BE DELEGATED** authority to, at any time, refer questions concerning compliance with the Procurement of Goods and Services Policy to the City's internal auditor. The City Treasurer, or delegate, is hereby further authorized to ratify and confirm completed awards or purchases between \$15,000 and \$50,000 where the City Treasurer or delegate is of the opinion that the awards or purchases were in the best interests of the Corporation.

#### PREVIOUS REPORTS PERTINENT TO THIS MATTER

Procurement of Goods and Services Policy Revisions, Corporate Services Committee, September 24, 2019, Consent Item #2.3; June 19, 2018, Consent Item #2.8,

Compliance Report in Accordance with the Procurement of Goods and Services Policy, Corporate Services Committee, April 16, 2019, Item #2.3; April 17, 2018, Item #2.3; March 28, 2017, Item #5; April 12, 2016, Item # 4; April 7, 2015, Item #6; May 13, 2014, Item #5; April 23, 2013, Item #3.

#### **BACKGROUND**

The Procurement of Goods and Services Policy outlines the processes to be followed in order to obtain the best value when purchasing goods, or contracting services for the

Corporation of the City of London. In accordance with section 8.11 (a), Managing Directors are required to submit an informational report no later than March 1st to the Manager of Purchasing and Supply containing the details of the informal quotation contract awards made under Section 8.5 (c) (i). Further administrative contract awards made in their area to any Professional Consulting Service firms made under Section 8.5 (c) (ii) with an aggregate total greater than \$100,000 in their respective Service Areas were also submitted to the Manager of Purchasing and Supply.

For information purposes, section 8.11(c) requires that an annual report of total payments by supplier (Appendix "A") is provided to identify where a supplier has invoiced the City a cumulative total value of \$100,000 or more in a calendar year. In 2019, the amount of suppliers who invoiced the City a cumulative value of \$100,000 or more was 491 (2018 - 517, 2017 – 369), a decrease of 26 suppliers. This report includes total amounts paid by the City during 2019, sorted alphabetically by supplier. This reporting requirements pre-dates the much more thorough annual compliance reporting that has been provided to Council since 2010.

The decentralized, administratively awarded Professional Consulting Service contracts that are aggregately greater than \$100,000 as per Section 15.1 (g) appear in Appendix "B". These awards were made in compliance with the Procurement of Goods and Services Policy.

Administratively Awarded Tenders with a value up to \$3,000,000 as per Section 13.2 (c) that do not have an irregular result are shown in the attached Appendix "C". When irregular results arise during the procurement process, those procurements follow Section 8.10 of the Procurement of Goods and Services Policy.

The Procurement of Goods and Services Policy (current revision dated October 1, 2019) identifies authorization thresholds, approval authority, and the associated Procurement policy section as per Schedule "A" of the policy, which is shown in the attached Appendix "D".

# Purchases Between \$15,000 and \$50,000 Methodology

The data for 2019 purchases between \$15,000 and \$50,000 was directly extracted from the accounting system for items that did not have Purchase Orders. This has been reviewed by the Manager of Purchasing and Supply for compliance to the Procurement of Goods and Services Policy. There were some minor items identified as a result of our review; all of these issues have been reviewed by the client Service Areas for root cause analysis, and corrective actions are being implemented by the respective Managing Directors. The amount of issues continue to be significantly reduced and are at the same level as the 2018 reporting, which remains an all-time low.

Specifics of the issues have been communicated in each area and additional training has been provided, which will prevent future re-occurrences. The City Treasurer or delegate will be able to identify and authorize any purchases that meet this criteria and can act on any items that may require internal audit attention.

# **Procurement Controls**

The Procurement Process is controlled at every step beginning with monetary spending limits, authorized documentation to commence procurement and clear processes for soliciting bids at various authorization limits. Awards are clearly documented both administratively and by City Council. The process is documented and subject to audit. Furthermore, in 2018 the City implemented eProcurement which further "error-proofs" the bidding process and provides a digital audit trail that also further improves efficiency and effectiveness of resources while standardizing our processes. This new digital business platform continues to be very successful.

Further, over the past two years, internal audit through work performed by Deloitte, conducted a procurement process assessment along with a review of the consultant selection/ engagement and construction procurement practices with reports issued to Audit Committee.

This annual report provides an in-depth review of various types of procurement and spending levels. It is a continuous improvement tool designed to demonstrate the City's Mission for transparency, fairness and competitiveness in public procurement.

# Scope of Responsibility

This review is limited to the City of London only and does not include Agencies, Boards and Commissions procurement.

## **Acknowledgements**

# **SCHEDULE "A" – Levels of Contract Approval Authority**

Sales taxes, excise taxes, goods and service taxes and duties shall be excluded in determining the price of a contract for the supply of goods or services for the purpose of the relationship of the price to the preauthorized expenditure limit. In the case of multi-year supply and/or service contracts, the preauthorized expenditure limit shall refer to the estimated annual expenditure under the contract. Emergencies as defined in Section 14.2 are exempt from this Approval Authority.

Dollar Value (excluding taxes, duty or shipping)	Tool / Procurement Process	Approval Authority	Policy Section
· · ·	Purchasing Card or Purchase Order	Managing Director or any employee exercising delegated authority approval	9
\$15,000 to \$50,000	IRFQ (Informal Request for Quotation) – three written quotes.	Managing Director or any employee exercising delegated authority approval	10
	<b>Note:</b> A copy of the quotes must be provided to Purchasing and Supply for their records.		
Greater than \$50,000 to \$100,000	RFQ	Managing Director or any employee exercising delegated authority approval and Manager of Purchasing and Supply (jointly)	11
	-	Managing Director or any employee exercising delegated authority approval and Manager of Purchasing and Supply (jointly)	12
Greater than \$100,000 to \$3,000,000	RFT without an Irregular Result	Managing Director or any employee exercising delegated authority approval and Manager of Purchasing and Supply (jointly)	13

#### Re: Board of Directors - Federation of Canadian Municipalities

In order to maintain City of London representation on the Federation of Canadian Municipalities' Board of Directors, I wish to seek re-election to the FCM's Board of Directors with the support and approval of the Municipal Council for the 2020/2021 term.

Therefore, I respectfully request that the attached Resolution endorsing me to stand for election and approving payment of all costs associated with attending FCM's Board of Directors meetings, for the 2020/2021 term, be adopted by the Municipal Council.

Finally, you will recall from previous years that in order to campaign for a position on the Board of Directors, it has been necessary to incur expenses related to campaign materials. I hereby respectfully request approval for reimbursement of up to \$500.00 for FCM Board of Directors campaign related expenses by The Corporation of the City of London, outside of my annual expense allocation, upon submission of eligible receipts.

Thank you for your consideration of this matter.

Josh Morgan Councillor, Ward 7

# FEDERATION OF CANADIAN MUNICIPALITIES -

#### **ELECTION TO THE BOARD OF DIRECTORS**

**WHEREAS** the Federation of Canadian Municipalities (FCM) represents the interests of municipalities on policy and program matters that fall within federal jurisdiction;

**WHEREAS** FCM's Board of Directors is comprised of elected municipal officials from all regions and sizes of communities to form a broad base of support and provide FCM with the prestige required to carry the municipal message to the federal government;

WHEREAS an election of FCM's Board of Directors will be held this year;

**BE IT RESOLVED** that the Council of The Corporation of the City of London endorses Councillor Josh Morgan to stand for election on FCM's Board of Directors for the 2020/2021 term; and

**BE IT FURTHER RESOLVED** that Councillor J. Morgan be reimbursed by The Corporation of the City of London, outside his annual expense allocation, for his campaign expenses in seeking re-election to the Board of Directors, in an amount of up to \$500, upon submission of eligible receipts; and

**BE IT FURTHER RESOLVED** that Council assumes all costs associated with Councillor Josh Morgan attending FCM's Board of Directors meetings, the FCM Annual Conference and AGM and the Trade Show, during the 2020/2021 term.

Chair and Members Corporate Services Committee

# Re: Association of Municipalities Ontario – Board of Directors, Large Urban Caucus

In order to maintain City of London representation on the Association of Municipalities Ontario (AMO) Board of Directors, I wish to seek re-election to the AMO's Board of Directors, Large Urban Caucus for the 2020/2021 term. As well, I will be seeking the position of Chair of the Board for the same time period. Therefore, I respectfully request endorsement for me to stand for election to AMO's Large Urban Caucus and the approval of payment of all costs associated with attending AMO's Board of Directors meetings, AMO Conferences, and other commitments (Task Forces, Executive Committee, etc.) during the period of my appointment.

For your information, Board meetings are generally held on the fourth Friday in September, November, January, March and June and on the Saturday/Sunday in advance of the AMO Annual Conference held in August. The June meeting is generally held in the President's or Secretary-Treasurer's home municipality. In addition, Executive meetings (composed of the Chair of each Caucus) are held on the Thursday before a scheduled Board meeting and on the fourth Thursday of the month when there is no Board meeting.

As well, I am requesting approval for reimbursement of up to \$500.00 for campaignrelated expenses outside my annual expense allocation, upon submission of eligible receipts.

I am therefore seeking approval of the following recommendation:

"That the following actions be taken with respect to the Association of Municipalities of Ontario (AMO) Board of Directors:

- a) Councillor A. Hopkins BE ENDORSED to stand for election to the Association of Municipalities of Ontario (AMO) Board of Directors, Large Urban Caucus, for the 2020/2021 term;
- b) subject to Councillor A. Hopkins' successful election to the AMO Board of Directors, Large Urban Caucus, all associated cost to attend the Board of Directors meetings, AMO Conferences and other related commitments (Task Forces, Executive Committee, etc.) for the 2020/2021 term BE APPROVED for reimbursement by The Corporation of the City of London outside of her annual expense allocation; and
- c) Councillor A. Hopkins BE REIMBURSED up to \$500 for campaign-related expenses outside of Councillor A. Hopkins' annual expense allocation, upon submission of eligible receipts.

I would be honoured to continue to represent the City of London on AMO's Board of Directors, Large Urban Caucus. Thank you for your consideration of this matter.

Anna Hopkins Councillor, Ward 9

anna Hapkind
