amend the Official Plan for the City of London (1989) to add new policies to permit additional residential units in any single detached, semi-detached or street townhouse dwelling unit in accordance with recent changes to the Planning Act;

c) the proposed by-law appended to the staff report dated November 30, 2020 as Appendix “C” BE INTRODUCED at the Municipal Council meeting to be held on December 8, 2020 to amend Zoning By-law No. Z.-1, (in conformity with the amendments above), to add a new definition for additional residential units and to add new regulations to allow up to two additional residential units in the primary residential unit and in an accessory building; and,

d) the Civic Administration BE DIRECTED to implement required changes to the Residential Rental Unit Licensing By-law to address Additional Residential Units;

it being pointed out that the Planning and Environment Committee reviewed and received the following communications with respect to this matter:

- a communication from A. Waz;
- a communication from C. Thompson;
- a communication dated November 24, 2020 from J. Wates;
- communications dated November 26, 2020 from A.M. Valastro; and,
- a communication dated November 26, 2020 from K. Owen, St. George Grosvenor Neighbourhood Association;

it being pointed out that at the public participation meeting associated with these matters, the individuals indicated on the attached public participation meeting record made oral submissions regarding these matters;

it being further noted that the Municipal Council approves this application for the following reasons:

• Policy 1.4.3 of the Provincial Policy Statement requires that the City plan for an appropriate mix of housing types and densities and permit, where appropriate “all forms of residential intensification, including additional residential units”;
• Bill 108 (More Homes, More Choices Act, 2019) amended the Planning Act to require that municipalities adopt policies in their Official Plans to provide for additional residential units;
• The London Plan includes policies to direct residential intensification. The proposed London Plan, 1989 Official Plan and Zoning By-law amendments to permit additional residential units contribute to the objective of promoting appropriate residential intensification; and,
• the recommended amendments result in consistency in terms of language, policies and regulations between the Provincial Policy Statement (2020), the Planning Act, London Plan, 1989 Official Plan, and Zoning By-law Z-1.

RE: Governance Function Review - Housing Development Corporation London

Homes Unlimited with our sister Corporation, Odell-Jalna Residences of London, is London’s oldest and largest non-profit housing provider. Founded in 1972, we own and operate 9 housing projects with 540 units. For our last two projects, 22 units at 77 Tecumseh Ave. and 54 units at 770 Whetter Ave. we received capital funding from the City of London and the Province of Ontario and worked with the HDC in the development of those successful projects. We appreciated the support and resources the HDC brought and it was a valuable partnership.

The landscape for affordable housing development changed, however, in 2017 with the Federal Government’s National Housing Strategy. The funding that allows organizations like Homes Unlimited to build new affordable housing is now available direct from the Federal Government through CMHC. Our current project, 110 units at 99 Pond Mills Road, will start construction in the next few months. It is being built with equity provided from Homes Unlimited’s reserves and a very low interest long term loan from CMHC. There are no HDC, City or Provincial grants or loans being used.

In this environment, the City’s role in developing affordable housing has changed. Non-profit affordable housing developers need the City’s support and help in expediting planning and approvals, in reducing or eliminating development charges and other fees and in providing rent supplements and supports so we can house the most vulnerable and most in need tenants. Our new projects are now in competition with other projects from cities across Canada and the funding is going to the projects and municipalities that are aggressively supporting new developments. While the financing models have changed, municipal support to non-profit rental housing developments remains a key factor in CMHC prioritization and selection.

In this context, the proposal before your Committee is necessary and supported by our organization. Many of the tools we need to continue our successful development of new affordable housing are available from the various City Departments. We would encourage the City to use this opportunity to create a priority, politically and administratively, to support new affordable housing development and allow non-profit organizations like Homes Unlimited to continue to build and operate this important resource in the City of London.

Respectfully,

HOMES UNLIMITED (LONDON) INC

RE: Business Case #10 - 60% Waste Diversion Action Plan

Dec 24th, 2020

Dear Colleagues,

When I met with staff during the summer and asked them to consider looking into the potential savings and increased diversion available from mixed waste technologies, they said it would require direction from council. Realizing I would not win that direction on hunch, I felt it necessary to do a deep dive evaluation into at least one mixed waste technology to see if there was a viable opportunity.

My conclusion, based on the attached report, is that there is a strong opportunity for savings in the tens of millions by pursuing mixed waste technologies without delay. In addition, total diversion could be increased to 71% in the near term and 90% in the longer term. I therefore ask that: Staff BE DIRECTED to include mixed waste technologies in both the public engagement and the procurement processes for the 60% waste diversion action plan.

Sincerely,

Michael van Holst
Councillor Ward 1
COVID Recovery with Green Technology

Dear Colleagues,

Our Minister of the Environment has charted a very sensible course for the future of waste management in Ontario:

“We should promote innovation and new technologies that are good for the environment and good for our municipalities.”

- Minister of the Environment, Conservation and Parks, Hon. Jeff Yurek

London could exploit a rare opportunity to fulfill the minister’s mandate with a private public partnership that would save tens of millions of dollars over our present course of action and substantially improve our waste management outcomes with European technology. Please consider the following comparisons.

To determine the long-term savings, operating costs must also be considered. The graph below compares the cumulative capital and operating expenditures of the Present Action Plan and the New Technology Plan options in 2020 dollars.

**CAPITAL COST COMPARISON**

**NEW TECHNOLOGY PLAN**

- **$31 Million**
  - Help-us-get-to-market-first Price
  - Mixed Waste

**PRESIDENT ACTION PLAN**

- **$15 Million**
  - Green Bin
  - Mixed Waste

$44 Million Dollar Capital Savings

**LONG-TERM TOTAL COST COMPARISON**

Cumulative Expenditures in 2020 Dollars

- **Present Action Plan**
- **New Technology Option #1**
- **New Technology Option #2**

Long-Term Savings: $37 - $58 Million
Better Results with New Technology

With mixed waste, residents put all household garbage in one container which is automatically and more efficiently sorted later at the processing plant. This is already the end-game imagined for London, but the gains compared to a green bin program are so significant that it should be pursued immediately.

ORGANICS COLLECTION

Present Action Plan
Organics collected from:
- Residential participants successfully separating their waste
Organics NOT collected from:
- Mediocre Separating
- Non-Participants
- Multi-Residential Units*

New Technology Plan
Organics collected from:
- 100% of Residential Units
- 100% of their Containers
- All Multi-Residential Units
- 2x Diverted Organics

GHG REDUCTION

Present Action Plan
An additional bi-weekly pick-up requires extra trucks on the road

New Technology Plan
No additional noisy trucks required
- 2x GHG Reduction

Where the present action plan fails to meet either city or provincial targets, the new technology plan exceeds both. When solid recovered fuel (SRF) is approved in Ontario, extra modules can be added to the plant which will increase total diversion to 90%.

DIVERSION

Present Action Plan
- 59% Total Diversion (62% of Organics)

New Technology Plan
- 71% Total Diversion (83% of Organics)
- 12% More Diversion
Automating the removal of organics from the waste stream means that 150,000 households are not required to sort garbage for the next decade. At 10 minutes per week per household, the value of labour from our residents would be equivalent to $18.2M annually which would double the cost of diversion were they to be compensated. In contrast, a mixed waste strategy could reduce the cost of diversion by 30% to 40% and residents will not be demanding enforcement for their non-participating neighbours.

**IMPACT ON RESIDENTS**

![IMPACT ON RESIDENTS](image)

New technology providers will offer many risk mitigations for a partnership to duplicate their European plants at the W12 landfill site. Examples of an escape clause and a no-capital-cost option are described below along with the numbers used for the calculations in figure 2.

**TWO OPTIONS**

![TWO OPTIONS](image)

London has suffered great financial losses due to the COVID-19 lock-down. The win-win New Technology Plan helps assure London’s long-term recovery and the jobs created to build the plant will boost our economy in the short term. Minister Yurek’s office is willing to meet and discuss the mitigation of all risks associated with the MOECP and our landfill expansion. Staff say they require direction from council to include mixed waste as an alternative. I therefore move:

The staff BE DIRECTED to include mixed waste technologies in the public engagement and procurement processes for the 60% waste diversion action plan.

Sincerely,

Michael van Holst
APPENDICIES

Appendix A - Resident Externalities

Including the impacts of resident labour in the Present Action Plan business case.

Appendix B - Further Considerations (not included)

The purpose of this report is to establish the viability of mixed waste technologies in general and not to advantage any particular candidates. Although Appendix B deals with potential concerns about the sector as a whole, it was omitted in order to avoid conflict with the procurement policy since some of the items referred to particular technologies.

1. Will London’s landfill expansion application be jeopardized?
2. Won’t we suffer heavy provincial fines if the technology does not work out?
3. Won’t it take too long for the province to approve a new technology?
4. Isn’t $31 Million too low an estimate for building a mixed waste plant?
5. Is the technology sufficiently proven?
6. Can a mixed waste plant handle 100,000MT per year?
7. What if Canada’s waste streams are different from Europe’s?
8. What if the plant can’t be built in 18 months as estimated?
9. What about our plan to use green bins first and then mixed waste?
10. Is there a greater fire hazard with these technologies?
11. Is it better to produce compost, methane or power?
12. Omitted
13. Why should London be the first to take on a new technology?
14. Aren’t the graphs more similar if financing is considered?
15. What about the financial assumptions made?
16. Doesn’t the Present Action Plan include a mixed waste pilot?

Appendix C - Supporting Documents (not included)

The supporting documents in this section generally make reference to individual technology providers and have been omitted so as not to advantage any particular candidates. In order to avoid conflict with the procurement policy, references to the documents were also omitted.

Appendix A - Resident Externalities

One non-transparent aspect of the Present Action Plan is that it requires the labour of residents to create the SSO, source separated organics. Unlike most new technologies, green bins require more work from their users instead of less and this is not accounted for anywhere in the business case. However, the math to correct that is not difficult with a few assumptions:

1. 150,000 households (hh) participate
2. They spend 10 minutes per week sorting garbage and moving the bin
3. Their time is worth minimum wage $14/hr

Calculations for one year:

52 wk x 10 min /wk x 1 hr / 60 min = 8.7 hr

8.7 hr x $14 /hr = $121

150,000 hh x $121 /hh = $18,200,000

The Present Action Plan includes $18.2M of hidden labour costs per year, prior to switching over to mixed waste processing in year 10. During that time it captures only half the additional organics of the New Technology Plan. The labour costs are graphed with the previous items below.

![Adding the Cost of Household Labour](image)

By including the hidden costs of resident labour, as seen in the table above, the cost of diversion is almost doubled for the Present Action Plan. Although the cost is presently hidden, residents who participate could actually be reimbursed $121. This would be more fair since many will not participate and it would create a paper trail that would show the true cost of the Present Action Plan.
Mayor Holder – Councillors;

Please consider the E – Mail content below as strong support for re-opening the budget business case # 10 (Waste Diversion) to both City of London staff direction and the public input process as recommended by Councillor Van Holst. AS I look around the diversion, recyclables market both Internationally, in other Provinces like Quebec and even other local Ontario communities & the recent Federal Government incentives, I agree that there is a strong probability that our London plan will be at least 50 % redundant prior to full implementation and will add both huge future risk and flexibility to change.

London’s future in both waste & diversion handling lies in forming strong fully private or public – private partnerships with leading providers to maximize our service requirements, cost structure and future opportunities going forward as they are the experts in continuous improvements & compliance. Examples - Our own never used Waste Burn facility – now redundant on Commissioners Road. City of Hamilton’s recent 2020 “poo explosion” at their brand new City owned dried sewage plant >> ownership got us/them nothing but risk.

While I agree there is an urgency to moving forward @ increasing the City of London’s diversion rate, the current path / plan we are on

- provides way less service frequency than our current collection schedule which is a future service & cost increase risk (even Stratford stayed @ weekly collections @ 50 % of our budgeted cost per household)
- Is way too capital $$ intense and with that the future liabilities of long term “write-offs”, capital improvements & budgeted maintenance & asset replacement (see next line item)
- Is at very high risk of being almost redundant compared to both emerging and existing technologies & business plans.
- Severely lacks in public – private partnership opportunities including who owns & drives the trucks. (Private firm vs City of Ldn opportunity review never aired out in this business case or public feedback)

- Councillor Hopkins: Thank you Mr. Chair and through you I have got a question about the h–9281 provision. It’s under review, if you could just give me a few more details about that provision.

- Mike Corby, Senior Planner: Sorry, are you referencing the new application for holding provision that just was circulated?

- Councillor Hopkins: That’s right. I’m referencing on page 61 the application for the removal of the holding provision 9281 and just trying to understand the sequencing of events here.

- Mike Corby, Senior Planner: Sure. So the holding for that provision for that application was just received and circulated for comment. Basically, no development can occur until those holding provisions are removed but we can move forward with the site plan process and the vacant land condominium process because completing that site plan process will actually allow us to remove a lot of those holding provisions.

- Councillor Hopkins. Thank you.

- Councillor Squire: Any other technical questions only from the Committee? Alright, there being none, we will open it up for public participation. Is there any calls or people in the overflow to make comments? Madam Clerk?

- Catharine Saunders, City Clerk: Thank you Mr. Chair. There are no calls. I would ask if committee room number five could confirm whether there’s any members of the public in the committee room regarding this application?

- Councillor Squire: Go ahead. Before you start I just want to indicate that you’ll have up to five minutes to make any comments that you might have and we try to, try to hold that strictly to the time limit so that being said, go ahead.

- Scott Allen, MHBC Planning: Thank you Mr. Chair and good afternoon Committee. My name is Scott Allen. I’m with MHBC Planning. We’re acting on behalf of the applicant. At this time we just want to express our support for the recommendations of the planning report as presented by Mr. Corby and we’d also like to thank Mr. Corby for his assistance through this process. Thank you and we will gladly answer any questions Committee members may have.

- Councillor Squire: Thank you very much. Not even close to the five minutes. Well done. Any other public comments? It doesn’t appear there are any. Am I right? All right then I’ll just need a motion to, well, we’re not going to close the public participation meeting. We’ll go on to the second matter at this point in time.
Councillor Squire: Thank you very much. Are there any technical questions from the Committee? There doesn’t appear to be any technical questions so we are going to go to public participation. No calls. Alright. So we’ll go to the, there are no telephone calls so we’ll go to the committee room for public comment. Thank you very much. Thanks for coming. As I indicated to the previous speaker you’ll be allowed five minutes for your presentation and go ahead.

Thank you Councillor Squire and Committee members. My name is Laverne Kirkness Consulting and Strik Baldinelli Monez Planners and Engineers as it is now and I act for Ayman Shanaa, who is behind me at the back of the room should you have any questions but he is the owner and the proponent of this development. He has owned the property for approximately five years. So, Committee, you have a report and recommendation in front of you. Monica Wu presented to you and we agree with that report and agree with the draft by-law and hope that you’ll take that to Council and recommend it but I just want to be clear that basically eight bed, eight units are proposed here. At the front it’s two storeys, at the back it’s three but it’s a total of sixteen bedrooms. I just got a bit confused in the presentation as to twenty-four and eighteen but I want to assure you that it’s, they’re two bedroom units, they’re specifically designed to be smaller with a kind of a household unit to be smaller, that’s more manageable. We know that they are students that will likely occupy this. The proponent advises me that in the five years that he’s owned the place, he’s never needed more than two or three parking spaces in any semester of the University and it’s because we’re only within a kilometer, half a kilometer of, of the campus itself so people move here, want a place here because they don’t have a vehicle and don’t want one. David Yuhasz of Zedd Architecture, we feel, really did a great job here and I think we can attest to it because we, it did appear in front of the Urban Design Panel and they were pretty much favourably disposed towards it. They did make some suggestions about reducing pavement and increasing planting area, which we did implement on that final sketch by reducing the, the for example the aisle of six meters to the backyard is now 4.5. We did a lot of reports including stormwater management, sanitary capacity, archaeology, heritage impact, neighbourhood character, land use compatibility, urban design and planning justification so we have really addressed the policy framework and in particular the Near Campus Neighbourhoods which are a rough set of policies to kind of get through but we hope that you would agree that, with the staff report that this is appropriate intensification and meets the policy framework. We did try to deal with the four concerns from the circulation of the application to the public. I suspect that there were somewhere around fifty to seventy-five letters that went out to households in the neighbour, in the neighbourhood. We only got five replies back, four concerns, one in support but we feel that we have addressed those in our site design and our building design and I think the staff really agree and we really appreciate if we go to the very last sentence of their report, Mr. Chairman, I, I can’t help but want to read it because I think that that’s so true based on these unique attributes which Monica described in terms of the site design and building design features. A site specific amendment for residential intensification at this location is reasonable and serve as a positive and appropriate example for similar, similar locations along the or in the Near Campus neighbourhood areas. I think that stands pretty tall and I sure hope that you would agree with me but I’m here to answer any questions should you have any. Thanks.
Councillor Squire: Thank you very much Mr. Kirkness. Any other public comments from the committee room? It doesn’t appear so and we don’t have any calls so what I would like to do now if there’s no more input is to close the public participation meeting with regard to items 3.1 and 3.2.
Councillor Squire: Thank you very much. I see Councillor Cassidy’s here, the Ward Councillor. Welcome. Any technical questions from the Committee or Councillor Cassidy? I’ll let you go ahead Councillor Cassidy. You’re, you’re first.

Councillor Cassidy: Thank you Mr. Chair. Thanks for recognizing me at your Committee. I have a couple of questions for staff. Number one, I wonder if you could give me, I understand there was a resurveying being done but in real terms, what is the adjustment to the park pathway going to mean?

Councillor Squire: Go ahead.

Sean Meksula, Senior Planner: I’m sorry. Through the Chair it had been resurveyed twice in the past two years and with the adjustment, there was just like a minor adjustment so it’s very negligible on the survey so it’s just readjusting the lines the way they were surveyed so that they’re correct at this time.

Councillor Cassidy: Okay. So just one more Mr. Chair.

Councillor Squire: Go ahead.

Councillor Cassidy: So we’re changing nine that used to be single-detached blocks, single family blocks and replacing them with a couple of medium multi-family blocks that I see in the report that will mean two hundred twelve units. Can you, do you have an idea of how many individual dwelling units were originally in the plan when it was single-detached?

Sean Meksula, Senior Planner: Through the Chair, I am not sure how many single-family houses were originally destined for this area. That being said, the original plan of subdivision came through for this was for a cluster development and then it was rezoned to allow for the single detached and now it’s going back to the cluster development.

Councillor Cassidy: Okay. Thanks.

Councillor Cassidy: Alright. Thank you Councillor. Any other further just technical questions right now? Alright. It doesn’t appear, there’s nobody on the phone in terms of public participation. Is there anybody in committee room five? One person. Go ahead.

Thank you very much Mr. Chairman. My name is Paul Hinde, Principal of Tanfield Consulting, representing the Clawson Group. Thank you very much for the opportunity to speak and just briefly we are in support of the staff recommendation going forward to Planning Committee through to Council in the coming months. I appreciate the efforts that Mr. Meksula has undertaken in order to get this to you tonight and we look forward to continuing a development that has been long, long on the books for a number of years. Just to address Councillor Cassidy’s couple questions, there was originally pre-2018, the two blocks were zoned for single-family housing but it was in a block nature so the individual lots were not actually created at that time so there wasn’t a specific number because it would have been done at a later point when the blocks were divvied up into individual lots but this redline revision is to go back to the pre-
2018 time frame when it was two blocks for multi-family, multi-family cluster housing. As you’re fully aware, that form of development is very sought after right now and it’s really to recognize a change in market conditions once again over the years as this subdivision has been on the books for well over a decade and slowly proceeding now. Thank you very much.

- Councillor Squire: Thank you very much and if we have any questions for you we’ll, we’ll ask you. Anybody else in committee room five? No other public participation then? Alright. I just need a motion to close the public participation meeting.

3.1 Public Participation Meeting – 2021 Budget Update

- J. Fontana – downtown resident – speaking with respect to the extraordinary times we are in and noting that a tax increase of 3.8% is highly irresponsible; requesting a tax freeze; noting that small business needs support, and this is not the time to raise taxes.

- A.M. Valastro – 123 John Street – speaking about the necessary revisions to the tree by-law, and the consensus that was presented at the first public participation meeting; this is not a big strain on the budget; noting the need to have additional by-law enforcement and move away from road-widening projects; and indicating frustration that staff and Council have not upheld the wishes of residents; focus on basics.

- M. Latino – lives in north-east part of town; call to leaders to act with a moral courage; noting the frustrations of citizens, a few months into summer – unprecedented number of Londoners coming together – Black Lives Matter; suggesting that the budget doesn’t reflect trust in the community and the budget assumes that the police should be enhancing the lives of marginalized communities; cops are trusted. Basic reading of budget reveals this – call on leaders to act with a moral courage to trust communities to find solutions and requesting that Council align the budget to this, not police.

- A. Kane – BLM London – noting that there is a point in history, where there is a need to end the police; defund the police; police violence on black and indigenous lives; need to have actionable changes to defend us, not by funding the police; the purpose of divesting London police and creating alternatives – unarmed mediation teams, non-criminal incidents, mental health ambulances, unarmed traffic enforcement, etc.; noting that the safest communities have the most resources, not police; need to end police brutality, just like slavery and segregation.

- G. Harper – on behalf of BLM – defund the police; move budget to other areas – shift priorities; police training is not conducive to many of the calls that they have; shift funding to social services – better use of funds; understand the limitations of the police – paperwork should not be the focus of their time; more police does not solve crime; move funding to other sectors to reduce need; increase police does not make all of us safe and experts have written extensively about this matter; need not be another black youth growing up in a white society.

- D. Turris – speaking in favour of the business case for film – and in support of the proposed business cases before the committee; sharing their background and experience; noting that London has opportunity to participate in the film and television and that this would be an economic boost – creates opportunities in the community; have the training at Fanshawe and Western – then graduates leave, the establishment of the film office will keep them in London.

- J. Windatt – speaking in support of the film industry business case, and the amendment from Councillors van Holst and Squire; noting that they are a business owner, and event organizer; with pandemic all events were cancelled, now working in media; unprecedented hardship to own business and economy; media-based entertainment is in every home; industry has reacted quickly to COVID protocols; this would bring jobs and production $ into local economy; facilitate a future for graduating students; great things are possible with initiative.
• Caller #1 – S. Franke – ward 11 resident – suggesting that emissions continue to rise, notwithstanding initial drop at the beginning of the pandemic; requesting funding allocations to climate change; noting the August update – screening to apply to future transportation projects; suggest that all projects go through this and a public screening process; make available to the public prior to any funding – the climate screening tool; noting cost mitigation opportunities that would also save money; suggesting that this is not a business as usual year; every budget requires evaluation through the screening tool, with a report to Council prior to any budget allocation.

• Caller #2 – A. Tucker – 280 Queens Avenue – submitted some information about sustainable development – in terms of an island; raising several questions related to the Core Area Action Plan and the associated funding for this; questioning the need.

Caller #3 – N. Evans – Congress of Black Woman – noting that they are alarmed by the wellness checks that have gone wrong; the organization understands the importance of policing, however it must be noted that the police are not equipped to manage the volume mental health emergencies; need to examine the possibility of redirecting funding to better trained response teams; suggesting the need to hire more black and indigenous officers; increase funding to social services; redirect funding into black community projects and away from the police budget.

• Caller #4 – A. van der Voort – speaking in support of growing the film sector in London; suggesting that Council plan ahead to support this industry; there a number of resources existing already in London; support the film industry here in London.

• Caller #5 – R. Carver, Associate Dean, School of Contemporary Media Fanshawe College Faculty of Creative Industries – speaking in support of the film industry in London; noting their work with staff on the business case, and now is the time for this in London; Fanshawe is a key participant; without it, will mean that London is under-represented; suggesting that there is spin off industry – including costuming, hoteling, etc.; there is anticipate a surge in demand, during and after COVID.

• Caller #6 – M. Amadasun – Argyle resident; noting their personal experience with systemic racism; discrimination and systemic racism exists, we all have a part to play – speaking in support of defunding the police by no less than 15%; the police do not keep us safe; doubling support of housing, long-term care, public service support; suggesting training to be made available to all government employees about unconscious bias; training needs to be from those communities who are being discriminated against; need more representation in the workforce, and this would minimize or reduce discrimination; funding and investment in the black community – give tools and access for various systems, so that all voices are at the table.

• Caller #7 – second paragraph in the budget – confirmed commitment – this needs to be followed-up by defunding the police budget; be that change – reallocate funding to addiction services, housing and recovery services.

• Caller #8 – S. Lewkowitz – this option is an important equity option in the process; speaking on behalf of the Urban League; support the call from Black Lives Matter, solidarity needs to be backed up with action; open the discussion on the police budget; suggesting that the pandemic has not affected everyone equally; the anti-racism lens is a good first step – but we require a full equity lens – make this a priority; only way to make this happen; historic investments – vital
that investments continue, austerity is detrimental; need to invest in services that support all people; asking for an additional budget public participation meeting, following the debate, and the establishment of Council priorities.

- Caller #9 – M. McIntosh – Londoner since 1978 – proud to be a Londoner, Black London Network – faith-based network; first-hand experience of black Londoners and black organizations; put investment into black organizations that support the community and anti-oppression racism; community grant program to support anti-black and all racism forms; money is a barrier, access funding comes with many barriers; common systemic barrier is the criteria to qualify for funding; requires that partnership is necessary to access funding opportunities; community grant process – extend anti-racism funding across multi-year budgets; demonstration of sustained commitment, but finding additional funding for additional anti-black racism initiatives; noting that action is required and the multi-year budget needs to support black-led organizations.

- Caller #10 – K. Web – resident of London – stating a land acknowledgement and urging Council to start meetings with an indigenous land acknowledgement; police is 18%, which is very high – this needs to be cut in half and allocated to social services, housing community services.

- Caller #11 – D. Day – resident – London police service is 18% of budget vs 2-3% for housing; increasing housing will reduce needs in other areas, including hospitalization; noting that people of colour are disproportionately negatively affected.

- Caller #12 – M. Metcalf - Vice President External Affairs University Students’ Council – speaking in support of transit funding; advocating for some policy change related to accessible and reliable transit; noting decrease in service time is disproportionality affecting marginalized communities; restore services to 100%, for the safety of students; suggesting COVID has not affected every Londoner the same; speaking against the delay on the implementation of the green bin.

- Caller #13 – M. Moussa – requesting the removal $13 million – for the consultation for new city hall; removal, not deferral – new city hall needs to come off the table, and allow the rate-payers to comment; money should be spent on infrastructure; doesn’t like multi-year budgets; city hall consultants cost is excessive and needs to be removed.

- Caller #14 – D. Aboud – speaking in support of the business case for the film industry; noting this is a growing opportunity, including for job creation; attraction of crews, money from production companies, a great deal that can be taken in by the City of London; graduates from London’s 2 great film schools leave the City – job creation is for all walks of life; strongly urge the funding of an office and believes that London can be successful in this realm.

6. Adjournment

The meeting adjourned at 7:50 PM.
The outdoor skating rinks now say to wear a mask BECAUSE your body requires more breath! Chinese kids have dropped dead in masked gym classes. 4 yr olds have developed debilitating lung infections FROM their masks. My mama always said don't put plastic on your face so I will not fall prey to this brand new backwards belief system.

No licensed business can discriminate because this is London Ontario Canada!

Spirituality in you was fined for simply having a sign that states ‘no mask no problem’. This defines the attack on spirituality. The 2000 yr old spiritual truth is that Jesus was resurrected and he prophesized of his reincarnation. We are all conscious energy and our bodies are temporary temples for this love of god. Our immune system is working and it got us here so congratulations- have no fear. I recommend you search the scriptures and do some soul searching to decide what side of these prophecies you want to be on.

For now it’s masks we’re talking about, but it’s another tip toe stepping stone. Now that they are rolling out the franken-vax, which hasn’t finished it’s 2 yr warp speed trial and already more of the public have been injected with it than people that were injected in these incomplete trials, the people you have turned against themselves, using fear and guilt, will blame the unvaccinated for the prolonged lockdowns when we really see this is about a larger agenda. If you cared about people and the planet why do you allow geoengineering? BTW-Zero carbon means zero human. We are not the virus yet based on what the PCR is looking for, if you cycled it 60 times we will be 100% positive, treating us like a virus. Afterall we have been told that humans caused the climate change that created the bat soup that caused covid1984. Why are we trusting China here?! My children will not grow up in a world being treated like a bioweapon, carbon footprint, terrorist that’s required to submit to Bill Gates’ mark of the beast with military in the streets. Or I guess with technocracy and 5G it’ll be robots right? Don’t you see that you will be out of a job thanks to A.I. as well?

For now, the Health Care Consent Act of Ontario is being violated by mandating masks which qualify as a medical treatment. Practicing medicine without a license is malpractice. The people are the ones with the power, and that includes citizens arrest.

In case you haven’t heard, on November 15 CTV reported that only 166 deaths in Canada over the past 8 months happened outside of so called ‘care’ homes. December 15 Dr’s Yaffe and Williams were caught on mic stating that they are just reading their scripts, so we know they are paid in full to not do their actual job. The number of officials caught not practicing what they preach are in the double digits now.

I hope you didn’t mute me on the other side of your screen and please heed this warning. For goodness sake. Show your love or be tried for malfeasance. I will not compartmentalize my spirituality for your fear of physical death. We will fall as a people if we don’t recognize the supremacy of god.

Put yourself in the shoes of the elders, do you want to die alone?

Here we are, 9 months after the 2 extra weeks for a LONG march break. Going on day 300 of 14. While I speak please keep in mind that you are loved, and this comes from a place of compassion for the sake of our health and safety. Why weren’t masks recommended at the so-called beginning? We can see where this tip toe is headed... In the summer, this council of the Corporation of the City of London needlessly went beyond Dr. Mackie’s recommendations, and even beyond the province’s regulations.

I’m now an unemployed single dad homeschooling my daughter as well a freshly failed Fanshawe dropout. There’s no way I will subject my 4 yr old to what the teachers are doing in the schools. We have also been denied entry to stores and turned away from the dentist. If I wasn’t spiritual, I would fall victim to the depression you perpetuate yet blame on this unicorn virus.

I had plans to buy a house and open my own restaurant, but now, I won’t be graduating from my apprenticeship this year, based on being exempt from covering my face but being denied entry for lacking a doctor’s note. Students in Ontario are being told this.

Yet Ontario’s regulation lays out 16 exemptions and is specific in saying that “for greater certainty, it is not necessary to provide evidence of an exemption” (as that would be discrimination and violate our privacy). It also states that federal and provincial laws prevail over these regulations. Human rights complaints applications have been postponed since March. The courts aren’t processing either. My MP ignores me. This seems like you don’t want it to end. HERE’S the flat curve for London’s area as of July! There’s the hospitals protected from the end of 2019’s flu season. But the headline reads ‘this fight’s not over’, sounding like sore losers as if they’re afraid of good news at the so called Free Press.

Even if I had provided a doctor’s note, Fanshawe would’ve issued me a yellow star sticker of shame for my student card to present when stopped by a special constable as proof of documentation. I came to city hall multiple times but just got phone numbers, LOOK (doesn’t include emails).

I’ve done all the school work I could in the meantime for an online chef program HAHA. Anyways, I tried to satisfy the process. My doctor won’t write notes for any of his patients, so Fanshawe tells me to get a new doctor. My family moved here and actually got denied by over 60 doctor’s (which is another story), but we found this one and we will stay there.

I was only seeing the doctor because I crashed my bike after the first day of being denied because it was so upsetting and I was blinded by tears. I was told “no mask no school”, unless I got a doctor’s note, so I tried to see if I could get the note for after I healed my foot. Don’t worry, I never went to the hospital or clinic, it was an over the phone assessment HAHA and even that took weeks to get. Nobody is readily available since nothing’s done in person. My request for a public participation meeting was ignored too.

I have been ignored, intimidated, bullied, harassed, coerced, threatened, discriminated against and have had confidentiality and privacy breached.

This led me to do my own research and I’ll share some. In violation of the Health and Safety Act, oxygen percentage levels drop below 19.5% within half a minute of covering your face. The carbon dioxide ppm exceed 10,000 in the same time. A twelve yr old’s mask was analyzed before and after an 8 hr day of school and it developed 82 colonies of bacteria and 4 colonies of mould. Neurological doctor’s warn that the brain damage is permanent and we’ll see it in a decade or two. A study was performed that halved the amount of infections in a surgery room where masks were abandoned for 6 months. This oxygen deprivation is at the least a crime against humanity, not to mention child abuse. Who’s liable?
