May 2021: TFAC Educational Initiatives and Outreach Subcommittee: A Few Suggestions and Comments on the City of London Website

Upon taking a brief look at the information on trees and forests on the City of London website, the Education and Outreach Subcommittee has a few suggestions for improvements.

1) Privately Owned Trees Page: Modify introductory blurb about private tree bylaw

Current Introductory Text:

“The City of London Municipal Council approved the new City of London Tree Protection By-law C.P.-1555-252 at its November 24, 2020 meeting with it going into effect March 1, 2021. Residents, industry experts, prior users of the permitting system and the Trees & Forests Advisory Committee were consulted as part of the crafting of the by-law.

If you have any questions, please email treeprotection@london.ca”

Suggestions:

- Unclear what types of trees the Tree Protection By-law protects (e.g., Distinctive Trees & Tree Protection Areas) – there needs to be a clearer intro for residents focused on what it does, rather than on who was consulted. Currently, it reads more like a description of the work staff have accomplished, rather than a communications piece aimed at the general public.
- Removed excess background information on the history of the By-law
- Briefly explain what the by-law does
- Define “Distinctive Tree”

e.g., *“The new City of London Tree Protection By-law C.P.-1555-252 went into effect March 1, 2021.*

This by-law protects Distinctive Trees, which includes all trees with a diameter of at least 50 cm located within the Urban Growth Boundary, as well as all trees located within Tree Protection Areas. Injury and destruction of these trees may be permitted with a permit in some circumstances.

If you have any questions, please email treeprotection@london.ca”

2) Privately Owned Trees Page: Provide more information on Tree Protection Areas, Urban Growth boundary

Suggestions:

- Tree Protection Areas:
 - What is a Tree Protection Area?
 - Make it easy to find out if you’re in a Tree Protection Area
 - Add direct link to Schedule B of the bylaw under “Tree Protection Area Information”
 - Currently, you have to find the link to the bylaw at the top of the page → Open the bylaw page → click link to “Schedule B Index Map” → click link to “Files: Schedule B Index Map”
- Urban Growth Boundary:
 - Add explanation: What is the Urban Growth Boundary?
 - Make it easy to find out if you are in a Tree Protection Area

3) Main Trees and Forests Page and Community Funding Page: Make it easier to find information about TreeMe

- Currently, TreeMe is very hard to find!
- Currently only located under “Community Funding” but there is no direct link to it from the community funding page (Figure 1, <https://london.ca/living-london/community-services/community-funding>)
 - The only link is the left bottom side panel after selecting a different program (e.g., “Neighbourhood Small Events Fund”) marked in Figure 2 (<https://london.ca/living-london/community-services/community-funding>)
- There is no mention nor link to TreeMe from the “Trees” page. It is neither under “Private Trees” (<https://london.ca/living-london/water-environment/trees/privately-owned-trees>) nor under “Tree Planting” (<https://london.ca/living-london/water-environment/trees/tree-planting-watering>)

Suggestions:

- Add a button/link to the Trees and Forests main page
 - Caption could read: “TreeMe Program: Learn how the City can help you get trees for your yard, school, workplace or community space”
- Create a button/link on the “Community Funding” page where the 3 other programs are (e.g., to appear similar to the “Neighbourhood Small Events Fund” or “Neighbourhood Decision Making”)

4) Main Trees and Forests Page: Add information on trees during the development process

Suggestions:

- Add a button/link on the main Trees and Forests page, “Trees and the development process”
 - This seems to be a topic many citizens care a lot about, but there is currently no information on the city’s website about it
- Explain how trees are protected throughout the development process from start to finish to help citizens understand the process
- Information on how to engage when they have a concern.

5) Main Trees & Forests Page: Add section on Community Partnerships & the Million Tree Challenge

- As a co-founder on the Million Tree Challenge, it would help to have London promoting the initiative and letting folks know how to register their trees
 - This could be a good opportunity to highlight other types of partnerships the City engages in as well to support the urban forest, such as the Adopt a Park & Adopt an ESA programs
 - Could also be an opportunity to promote volunteering

Suggestions:

- A button/link on the main Trees & Forests page called “Community Partnerships” with caption “Learn about the many ways community partnerships contribute to the growth of our urban forest, as well as our citywide Million Tree Challenge”

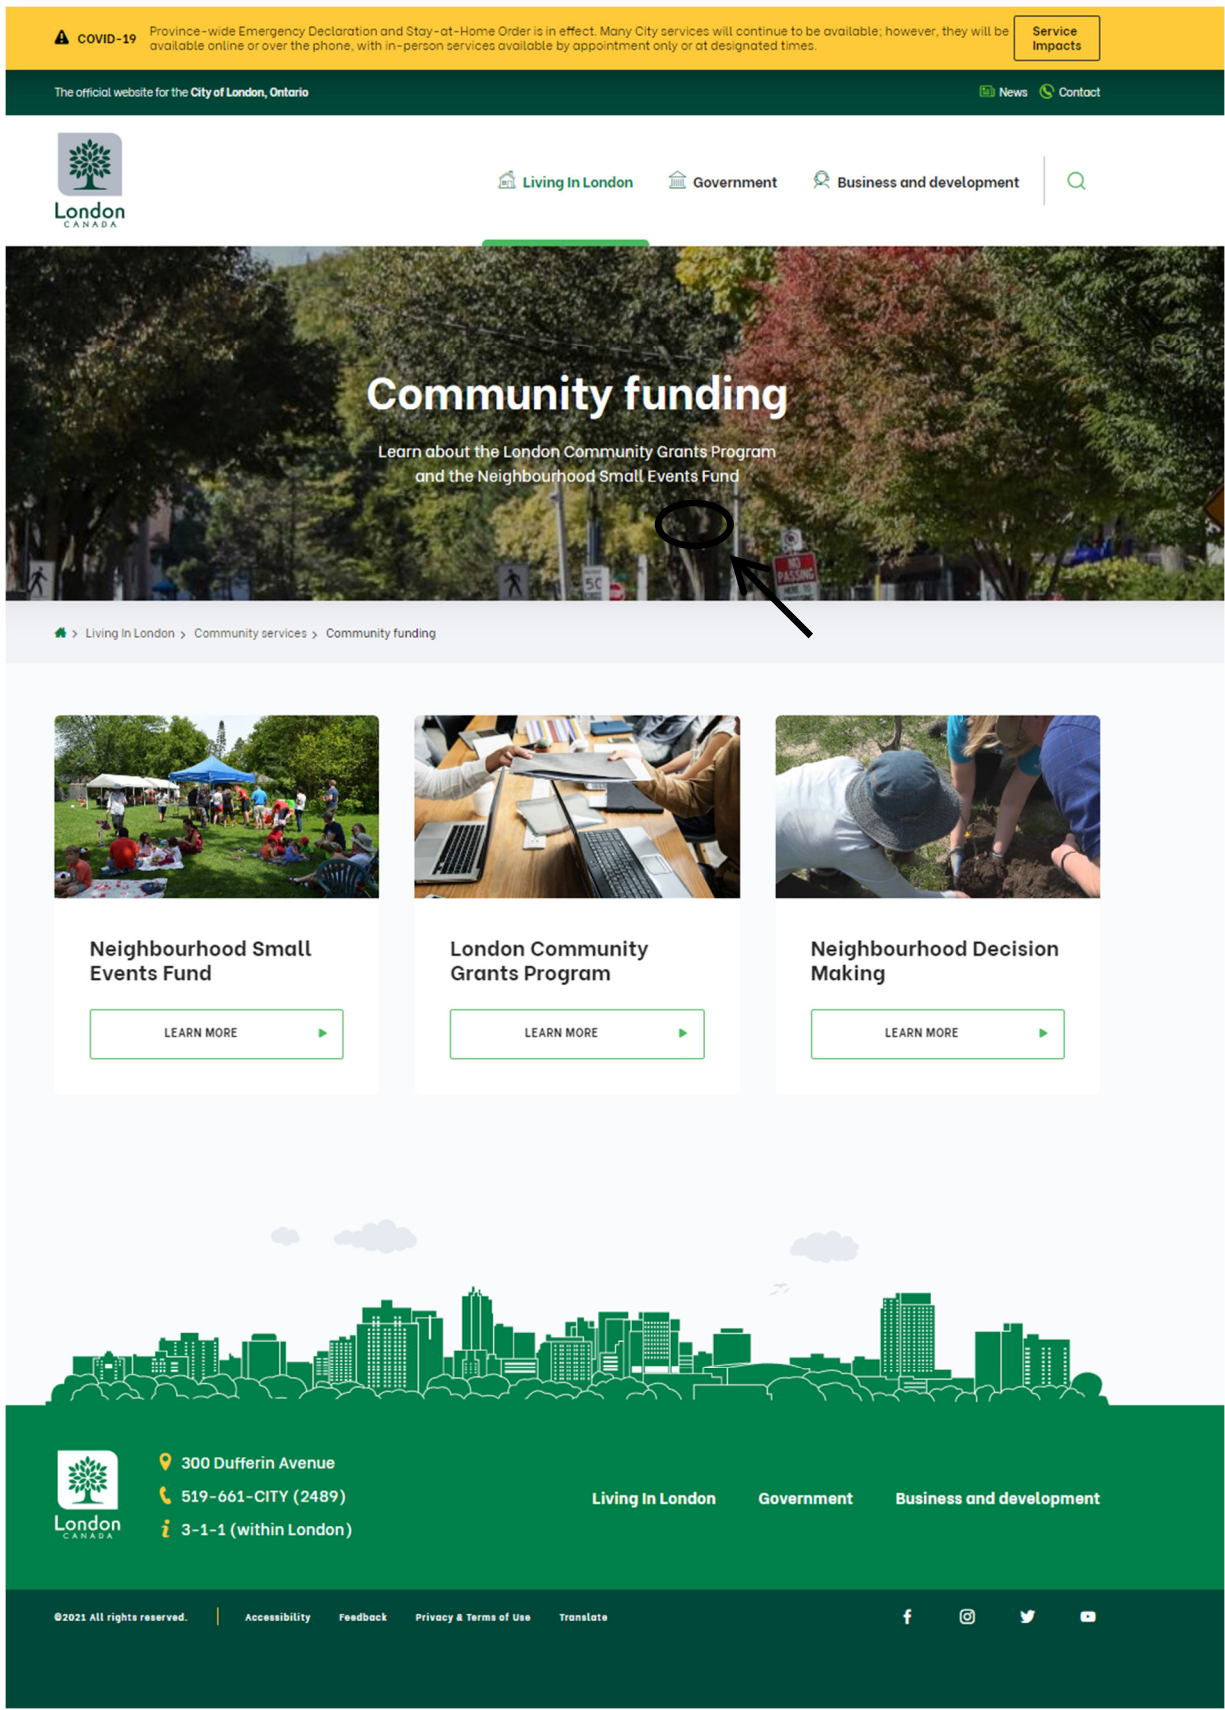

Figure 1: The Community Funding page from the City of London’s website (<https://london.ca/living-london/community-services/community-funding>). Note that while TreeMe falls under “Community Funding”, here is no link here to it. It is suggested to add a button here, similar to the other 3 to the page (“Neighbourhood Small Events Fund”, “London Community Grants Program”, and “Neighbourhood Decision Making”)

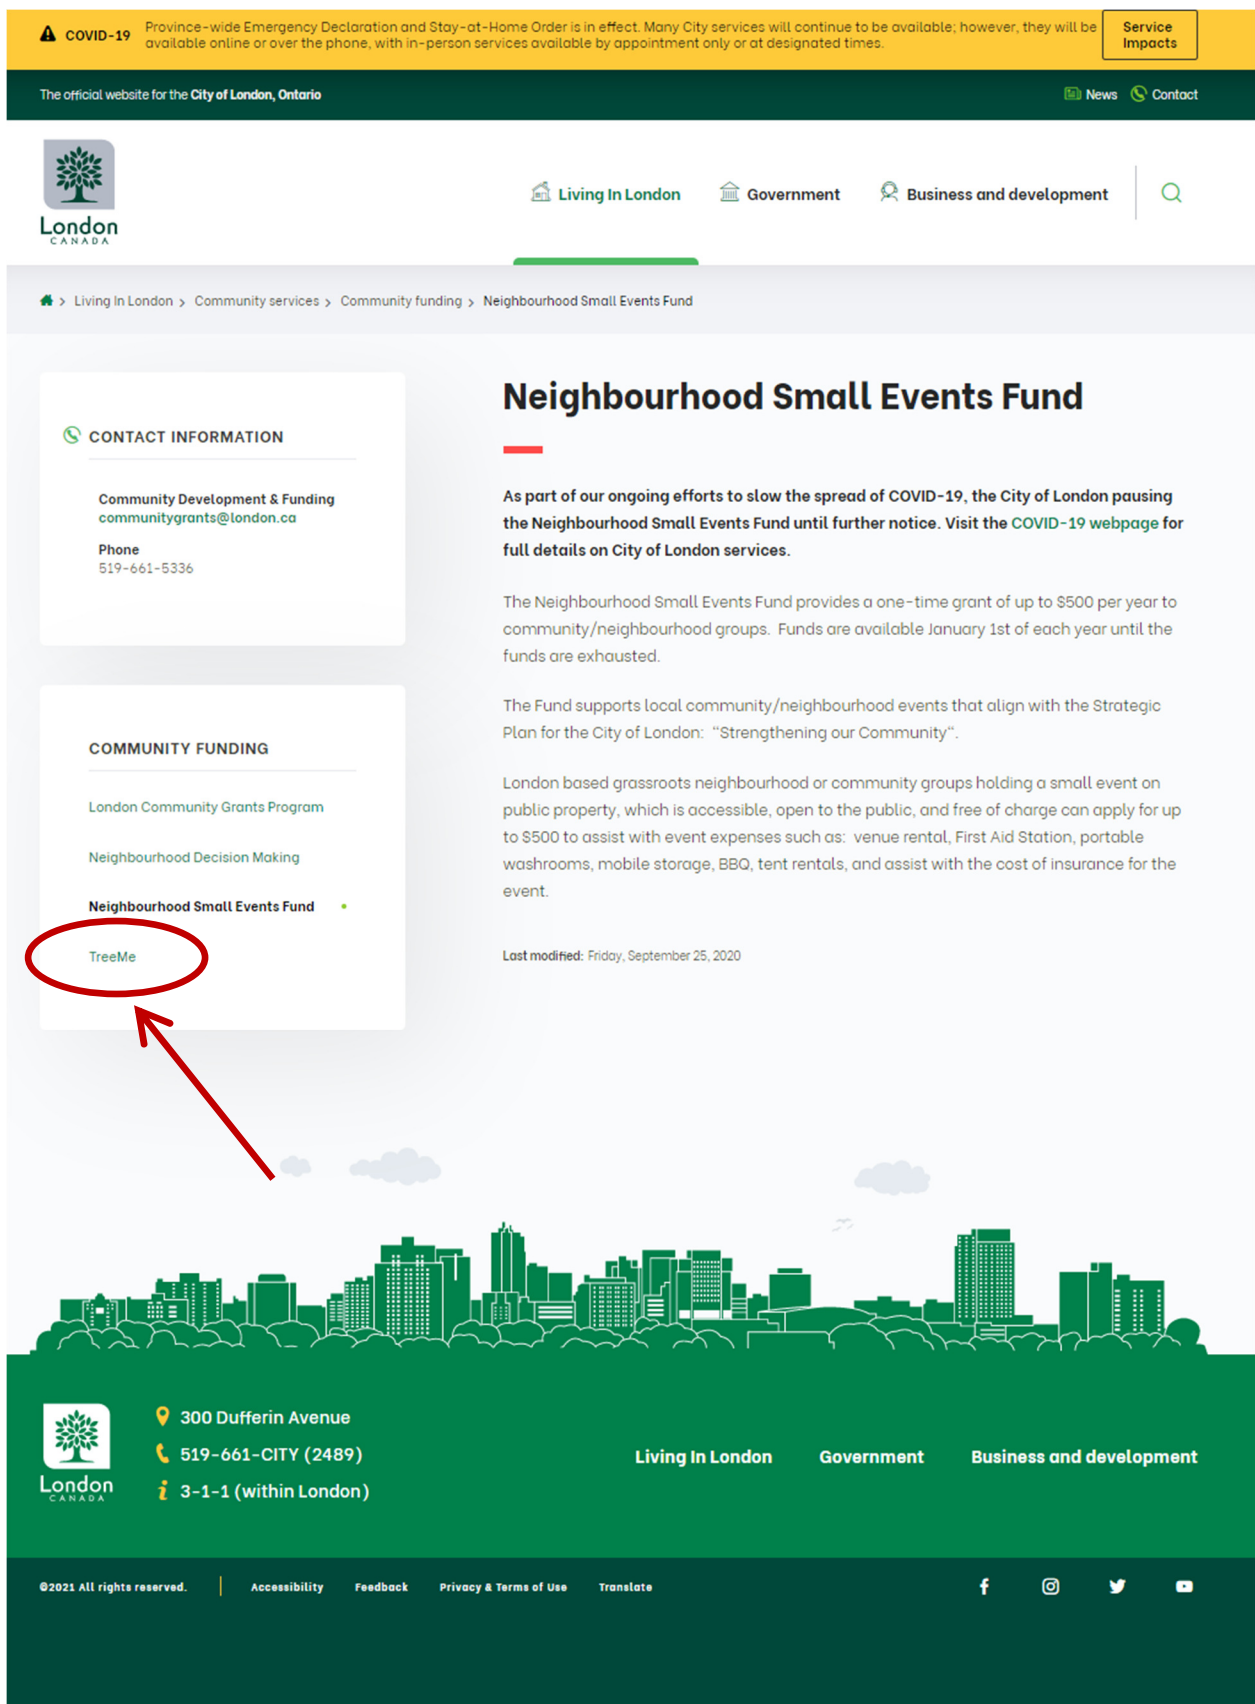

Figure 2: The link to TreeMe on the City of London’s website. As noted under Figure 1, there is no direct link to TreeMe from the Community Funding Page, which is shown in Figure 1. If you click on one of the other, unrelated funding programs such as the “Neighbourhood Small Events Fund” (shown here, <https://london.ca/living-london/community-services/community-funding/neighbourhood-small-events-fund>), the only link to TreeMe is found on the lower left (as marked).

Subject: Creating ecosystems

Hey Audrey!

At the last TFAC meeting the topic of having the City's Park's Department look at finding more locations to create ecosystems within the city was discussed.

Jill-Anne mentioned that some areas in Springbank Park have seen grasses left unmowed to create healthier environments for pollinators.

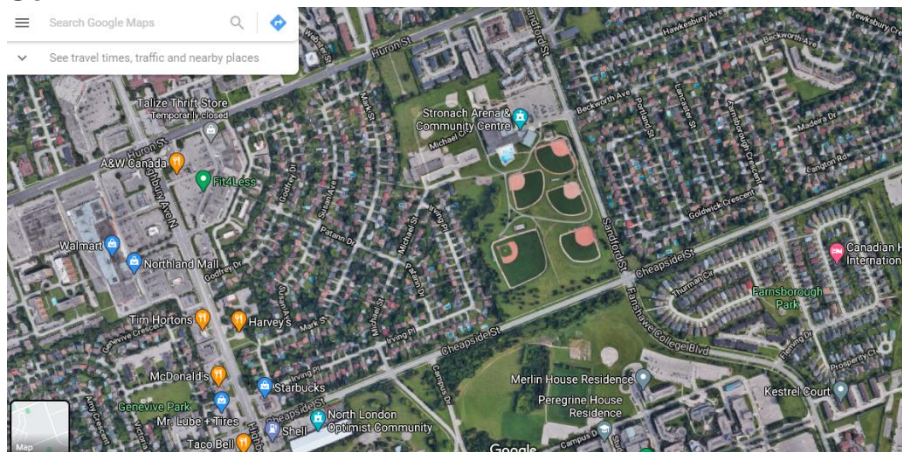

While allowing grasses to grow is a good thing... a few more steps added to this process would help to create mini ecosystems throughout the city... making it a great thing!

To do this, the City would need to start planting bushes and wildflowers in the areas where they are now just not mowing.

I was invited to offer a suggestion at the April meeting.... so here it is...

I'm hoping that this idea will be accepted and moved forward, or even improved upon and moved forward. I would like to see this idea used as a foundation block for further initiatives of this nature.

So....

... here's the park that I believe would be a great place to start!
It's north of Cheapside and east of Sanford.

A closer look at area #1

The yellow line indicates the area where I would love to see this initiative take place. The other two blue lines indicate possible locations to further this initiative. Quite simply... around the outer edges of these tree groups, have the Park's Dept. plant a variety of native shrubs. Within the area, allow the existing grasses to grow and also add native perennial wildflowers.

Here's a second location in this same park....

So... there ya go!

If TFAC members could have a chance to look at this info and spend a few moments thinking about the desired end results that I'm trying to express, before the next meeting, then we could probably move this matter along fairly quickly at the next meeting.

Thanks

Jim

Subject: [EXTERNAL] Agenda item for next TFAC meeting

Hey Audrey!

This is something I've been wanting to discuss for a while now and I'd like to see if TFAC can get involved in making a recommendation to support this idea.

About three years ago, a new Filipino law was created to promote tree planting. If a student wants to graduate, they must plant a certain amount of trees!

Here's a link to a news story about it

- <https://www.forbes.com/sites/trevornace/2019/05/29/new-filipino-law-requires-every-student-to-plant-10-trees-if-they-want-to-graduate/?sh=67644a1a5aeb>

I think that this is a great idea!

I'm not sure if this is something that would have to be handled by the Federal or Provincial gov'ts or if this is something that can be done municipally! I know the TVDSB already has mandates stating that high school students must volunteer for a set number of hours in order to graduate... so I'm thinking that maybe this idea could be molded into this other existing program.

The City of London declared a state of emergency in response to climate change and on the first page of the document it says that in order to have success, that the City of London will have to work with both Federal and Provincial gov'ts to achieve its goals.... so no passing the buck and finding excuses should exempt London from not moving this idea forward!

I think that this matter would be a good thing for TFAC to get involved in!

Report to Governance Working Group

To: Chair and Members
Governance Working Group

2.0 Discussion and Considerations

2.1 Individual Committee Structure(s)

Previous reports have reviewed options for the purpose of any given advisory group, in terms of “engagement” versus “expert advice”. Currently, and in accordance with the above-noted direction, there is not a recommendation to proceed with the establishment of any new expert panels.

This report proposes that ‘Advisory Committee’ be used as a term to define specific types of groups, such as the Environmental & Ecological Planning Advisory Committee and Childcare Advisory Committee. These two committees were specifically identified by Council to remain in the status of ‘Advisory Committee’. The membership of these committees would be more specific, although not as specialized as the requirements of membership on an ‘expert panel’.

“Community Engagement Panel” is a new term proposed for other groups that the council may convene, that have a purpose more closely related to engagement on specific matters. In the case of these committees (panels), membership would be more generalized to provide for representation of a broader nature. Individuals would be expected to have an interest in the subject matter, but specific ‘qualifications’ would not be required. The community engagement panel membership appointments could be managed differently than advisory committee appointments; these panels are proposed to encourage broad participation for all who may be interested in a particular subject matter.

2.2 Draft Terms of Reference

Attached to this report, as Appendix A, are draft Terms of Reference for the proposed committees as previously directed by Council (except for the Community Safety and Well-Being Advisory Committee). Please note that most ‘names’ associated with the proposed committees are intended for discussion purposes.

In each of the proposed Terms of Reference, the Non-Voting Resources have been updated to be as flexible as possible in order to better serve the needs of the respective committees. There are some included non-voting membership suggestions, however these are intended to be potential guidelines and it would not be expected that there

would be “appointments” of resource members or that would attendance of any resource members for all meetings.

These Terms of Reference attempt to balance the feedback received to date, which was quite broad, with the direction from Council at this time.

Legislatively Required Committees:

Community Safety and Well-Being Advisory Committee – This committee is currently outside of this advisory committee structure but is Corporately established in accordance with the applicable legislation, the *Police Services Act*. This is not included with this report.

London Planning Advisory Committee – The committee will fulfil the legislative requirement under the *Planning Act*, 1990 for the establishment of a Planning Advisory Committee and will address heritage-related matters.

Accessibility Advisory Committee – The proposed Terms of Reference has been streamlined and is primarily based on the legislative requirements.

Additional Committees/Groups:

Ecological Advisory Committee

Child Care Advisory Committee

Integrated Transportation Community Engagement Panel

Environmental Stewardship and Action Community Engagement Panel

Diversity, Inclusion and Anti-Oppression Community Engagement Panel

Animal Welfare Community Engagement Panel

3.0 Next Steps

3.1 Continued Consultation

The City Clerk’s Office will work to gather feedback on the proposed Terms of Reference provided with this report. This will include consultation with elected officials, advisory committee members and the Civic Administration to ensure this structure is appropriately aligned with the corporate structure, and that the roles are reflective of current established direction. At the same time, work will continue on the General Terms of Reference for all Advisory Committees.

3.2 Additional Considerations

Traditionally, the advisory committees have enjoyed a parliamentary structure less formal than the City Standing Committees or Council. At the same time, the parliamentary structure that is required of the advisory committees has inadvertently created difficulties for the functionality of the committees. A few examples are the quorum requirement for meetings and the lack of a member who is interested to serve as the committee Chair. Occasionally, there have also been committees that have not been as efficient as they may otherwise be, due to a lack of parliamentary procedure experience. Should there be support for the above-noted proposed structure, it would be recommended to also consider differentiating the operation of these structures in the General Guidelines for All Advisory Committees. This could include, but not be limited to, modifying the quorum requirement, and having a staff person lead the committee in more of a moderator role for the community engagement panels.

4.0 Financial Impact/Considerations

None at this time.

5.0 Conclusion

The responses received from current advisory committee members related to the previously considered structure varied significantly. This is not unlike the previous feedback that was provided in the report from March 2019, which included the previous advisory committee membership. As such, the Committee may wish to provide additional specifics for staff, to be better positioned to present an implementation plan.
