Application

Committee you are interested in serving on: **Environmental Stewardship and Action Community Advisory Committee**

Contact Information

Name: **Alfred Adu-Bobi**

City: **London**

Province: **ON**

Postal Code: **N6G 2Y2**

Experience and Qualifications

If you have experience on a London Advisory Committee, please provide dates and details. (max. 250 characters):

I have never served on any London Advisory Committee before.

What do you hope to contribute or learn as part of a Community Advisory Committee? (max. 250 characters):

I want to contribute to the improvement of London's natural environment, promote sustainability and conservation of natural resources in London and environmental consciousness and inspire Londoners to become environmental stewards.

How will you support the work of a Community Advisory Committee? (max. 250 characters):

I will contribute my ideas and experiences to committee meetings, conduct research, identify environmental issues and develop evidence-based recommendations to deal with them and utilize social media and public discussion platforms to raise awareness about environmental issues.

We value the contributions of Londoners with diverse experiences and welcome applications from individuals who share our commitment. Please describe how your work, community or lived experience will enhance these efforts through Community Advisory Committee work. (max. 3000 characters):

I am an environmentally conscious researcher. In my capstone project, I presented a project on how to build and improve the leadership skills of school principals to build sustainable schools. I am the founder and patron of Friends of Computers, an ICT club. I actively trained my students to acquire computer skills to investigate environmental issues in the Global Teenager Project. Our project resulted in students planting trees in the school compound.

I also witnessed firsthand environmental destruction in my community in Ghana. These experiences have inspired me to actively engage with the committee's work. I want to connect with others to improve the environment.

Please describe additional experience, training, or community involvement that will help you in your role as a Community Advisory Committee Member. (max. 250 characters):

As a Ph.D. student offering Critical Policy, Equity and Leadership Studies, I have a strong theoretical foundation and critical thinking skills to enable me to examine environmental policies, acts, and issues. I am also a Society of Graduate Students (SOGS) Councillor and an active member of the SOGS Policy and Racial Equity and Inclusivity Commissions, where I collaborate with students from diverse backgrounds to propose policy recommendations and promote students' welfare and foster equity and inclusivity

for every student at Western University. My current position as an Office Assistant at the Ministry of Transportation has provided me with valuable insights into government operations, policy recommendations, and stakeholder engagement. I believe that these experiences will enable me to serve as a member of the Environmental Stewardship and Action Community Advisory Committee.
