Executive Summary

The purpose of this report is to seek Municipal Council approval for the expropriation of lands required by The Corporation of the City of London for the Wellington Gateway Project, Phase 3 & 4.

Multiple property needs have been identified to accommodate the project design and legal possession is required prior to advancing utility work and awarding the construction contract. Forty (40) properties remain outstanding. Realty Services will continue to negotiate with the outstanding property owners in parallel with the expropriation process.

Two Hearing of Necessity Requests have been received by the Clerk’s office, as of the date of the writing of this report, with the potential for both to be withdrawn as discussions with the owners and their legal representative’s progress.

Linkage to the Corporate Strategic Plan

The following report supports the Strategic Plan through the strategic focus area of Mobility and Transportation by building new transportation infrastructure as London grows. The improvements to this corridor will enhance safety and provide convenient mobility choices for transit, automobiles, pedestrians and cyclists.

2.0 Discussion and Considerations

2.1 Background

The Wellington Gateway Project will revitalize approximately six kilometres of key arterial road between Downtown and Highway 401. The project will widen Wellington Road to add continuous transit-only lanes. The goal is to improve traffic capacity and increase transit frequency and reliability while also addressing necessary underground work, including replacing aging sewers and underground infrastructure.

The project has received Provincial approval of the Environmental Assessment (EA) which identified requirements for property acquisitions.

Due to the growing use of these roads and developments in the area, combined with operational needs to improve safety and support for all travel modes, the Wellington Gateway Project was identified as a priority to deliver a critical component of London’s rapid transit system, a central component of London’s land use and transportation policy.

Figure 1: Wellington Gateway Project Limits and Design Segments

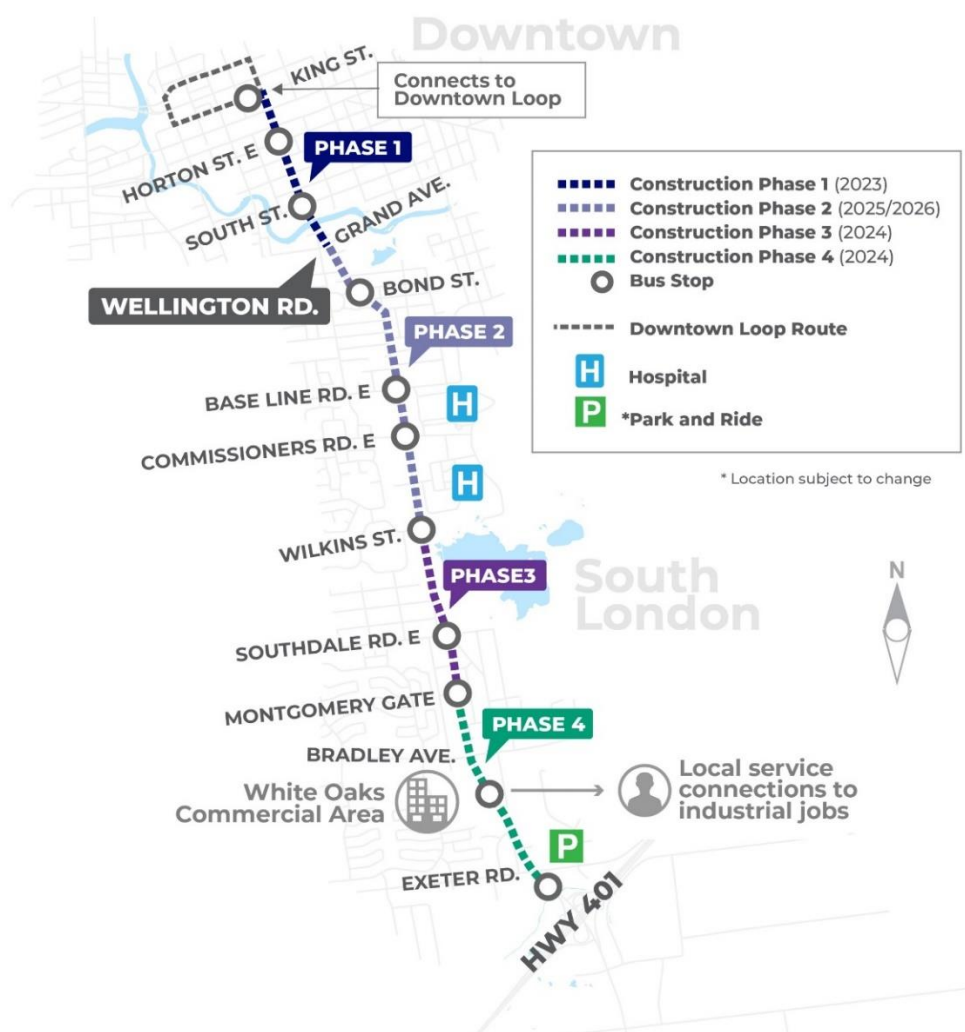

Figure 1 illustrates the limits of the Wellington Gateway project and its four construction phases.

2.2 Anticipated Construction Timeline

The Wellington Gateway is planned for construction from 2023 and 2027 with a phased approach.

The first phase of construction began this year building Wellington Street from York Street to just north of Clarks Bridge over the Thames River.

The second year of Wellington Gateway construction is scheduled to begin in 2024 subject to property acquisition and other approvals. Design Phases 3 and 4 will build Wellington Road from Exeter Road north to Wilkins Street. Some utility relocations and tree removals will be completed prior to capital construction. See Figure 1.

Negotiations with all property owners in Phases 3 and 4 have been ongoing since late spring / summer 2022. As legal possession of all property requirements will be needed to commence utility work and award a construction contract, the expropriation of all outstanding property is necessary. The legal possession requirements consist of 1 full buyout, 15 partial takings, 20 permanent easements, and 42 temporary easements.

Realty Services continues to negotiate with the outstanding property owners in parallel with the Council approval to proceed with the expropriation process to meet the project construction timelines.

Location Maps and legal descriptions of outstanding property requirements are included as Schedule A.

3.0 Financial Implications and Considerations

3.1 Compensation for Land Acquisition

Impacted property owner's compensation is protected through the expropriation legislation and Council Property Acquisition Policy. If negotiated property compensation settlements can not be achieved on an amicable basis, the compensation may be arbitrated through the Ontario Land Tribunal.

There is budget available for Wellington Gateway land acquisition costs relating to Phase 3 and 4 property acquisitions.

Conclusion

Construction of Wellington Gateway Phases 3 and 4 are scheduled for 2024 subject to property acquisition and other approvals. Property acquisitions need to be secured prior to commencing advance utility work and awarding the construction contract.

Commencement of the expropriation process is recommended at this time to ensure project timelines are achieved.

Realty Services will continue to negotiate with the outstanding property owners in parallel with the expropriation process.
