Planning Policies

The subject parcel straddles the Urban Growth Boundary (UGB) shown on Map 1 – Place Types in The London Plan. The northerly portion of the parcel inside the UGB is within the “Neighbourhoods” and “Green Space” Place Types. The Neighbourhoods Place Type permits a range of housing types including single detached, semi-detached, duplex, triplex, and townhouse dwellings. Permitted uses within the Green Space Place Type are dependent upon the natural heritage features and areas contained on the subject lands, the hazards that are present, and the presence of natural resources which are to be protected. Permitted uses may include district, city-wide and regional parks; private green spaces such as cemeteries and private golf courses; and agriculture, woodlot management and urban gardens.

The southerly portion of the parcel outside the UGB is within the Farmland Place Type permitting agricultural uses, including the principal farm residence, secondary farm dwelling units that may be required for the farm operation, and associated on-farm buildings and structures that support the farm operation, such as barns, silos, drive sheds, and manure storage facilities. Residential uses on existing lots of record, agricultural-related commercial and industrial uses, secondary farm occupations and on-farm diversified uses, ancillary retail for on-farm grown and/or produced goods, green space, conservation areas, and natural resource extraction may also be permitted subject to the policies of The London Plan.
