**Subject:** [EXTERNAL] 705 Fanshawe Ave

Good day.

I would like to share my concerns with city of London officials.

As my family learned lately from the news, city has a plan to open homeless hub at 705 Fanshawe Ave.

We have very serious concerns about this decision.

London already experience homelessness crisis in downtown.

But what the benefit you expect to get from spreading it to other neighborhoods?

My family and friends are highly concerned about our kids safety in case that facility will be open in our area. Many of homeless people unfortunately have mental health issues and drug issues.

Please consider to expand existing hubs in downtown and keep other areas safe.

Thank you, I hope you will understand us.

Volodymyr Cheremisin.
