Corporate Services Committee

Re: Councillor Expense Reports

With the new web site up and running, I respectfully suggest we add our expense reports to be published and available on the web site. Staff require this direction from City Council in order to proceed. As you know, this would complement posting of campaign donations, salary and benefits information as well as the traditional contact information for the public on how to contact their City Councillors.

I know we all share the same goals of efficient and effective government, as well as open, transparent and accountable government.

I look for your continued leadership and support in posting this additional information in the public realm.

Respectfully submitted,

Joe Swan
Councillor, Ward 3
