THIS MAP IS AN UNOFFICIAL EXTRACT FROM THE ZONING BY-LAW WITH ADDED NOTATIONS.
The applicant has received approval to register the 101 single detached lot residential block and has signed and submitted the subdivision agreement for Phase 2 of draft plan of subdivision (39T-11504).

**h. Holding Provision**

The h. holding provision states that:

“To ensure the orderly development of lands and the adequate provision of municipal services, the "h" symbol shall not be deleted until a subdivision agreement or development agreement is entered into for the lands in question with the City of London.”

The applicant has entered into a subdivision agreement with the City for phase 2 of Draft Plan 39T-11504 for 101 single family residential lots. The subdivision agreement satisfies the requirements of this holding provision for lands zoned R1-5 and R1-6.

**h-100 Holding Provision**

The (h-100) holding provision states that:

“To ensure there is adequate water services and appropriate access, no more than 80 units may be developed until a looped watermain system is constructed and there is a second public access available to the satisfaction of the City Engineer, prior to the removal of the h-100 symbol.”

The h-100 holding provision requires that a looped watermain system be constructed and a second public access is available for these lands. The looped watermain has been constructed and the public access is available to the satisfaction of the City Engineer. It is appropriate to remove this holding provision at this time.

**CONCLUSION**

It is appropriate to remove the h. and h-100 holding provisions from the low density residential zone at this time. Removal of the holding provision will allow the property owner to apply for building permits to allow construction of 101 single detached dwellings. The holding h-82 and h-94 holding provisions will remain on the part blocks to ensure that the future lotting will be consistent with the abutting lands when they are developed.
