Re: Allow Free Vote on Fluoride - 2014 Municipal Election Ballot ()

I respectfully request the following question be placed on the 2014 Municipal Election Ballot for the voters of London, to give clear direction on this issue to the next Council. Further, I request delegation to speak to this matter at the **October 8, 2013** Corporate Services Committee meeting.

**SHOULD THE CITY OF LONDON FLUORIDATE
YOUR MUNICIPAL WATER?**

☐ YES ☐ NO

As we are all aware on Council, this is a controversial issue and by allowing democracy to decide at election time by giving the voters the right to direct us by this result, it will give the new Council clear instruction on the intent and will of London voters. For a politician to say ***“vote for me, but you can’t vote on major issues”***, is wrong.

It is expected, that this will drastically increase voter turnout which is good for everyone, due to the high level of interest it will create. The voters of London would certainly appreciate that their voice is heard loud and clear on this matter.

Sincerely,

A handwritten signature in black ink, appearing to read 'Stephen Orser', with a long horizontal line extending to the right.

Stephen Orser
Councillor, Ward 4
