**Subject:** [EXTERNAL] Upcoming City Budget

I understand as a citizen & taxpayer of London ON I have the opportunity to voice an opinion about the upcoming budget.

I 100% reject any further increases to the police budget until what they have works more efficiently and effectively. I believe response times are not in line with the public's needs, my circle of acquaintances unanimously complain about the negative safety of our city. The police need to earn our increased monetary support.
