

Committee: **Environmental and Ecological Advisory Committee**

Organization/Sector represented:

Name: **Randy Trudeau**

Address:

**484 Belvedere Ave  
London N6k 2R2**

Occupation: **retired**

Work experience: **Taught secondary school science for 31 years which included fourteen years as a department head supervising a staff of eight**

Education: **Bachelor of Science Degree, Honours Biology**

Skills: **A collaborative attitude. Very organized and a meticulous planner. Possess a thorough knowledge of ecological and environmental fundamentals.**

Interest reason: **I want to be part of the decision-making process involving development and environmental protection. I think I would offer a balanced approach.**

Contributions: **As a member of this committee, I would provide a liberal voice with a strong conviction to balance the need for development and preservation of our natural environment. Change and progress are inevitable but at the same time generations before us have benefitted from the natural beauty of our city and our decisions must ensure generations after us will do so as well.**

Past contributions: **Served as a member and chairman of the TVDSS Science Department Heads committee. This committee regularly advised the school board on matters related to curriculum development, staffing, purchasing and construction design.**

Interpersonal: **Experiences include: Providing regular input to the principal on the school growth plan. Convincing a department member that a progressive teaching tool should be adopted. Adapting lessons to specific needs of individual students. Motivating a skillful athlete to adopt a team concept or improving the confidence level of a disabled athlete.**

Interview interest: **Yes**
