Lori, thanks for the note - I've cc'd the city clerk on this reply. Cathy could you please include this within the added section of the agenda?

Best regards and please keep in touch,

Matt Brown
City Councillor, Ward 7

Dear Mr. Brown,

I am writing to express my concern with the proposed development at Richmond and Hillview. Unfortunately, I am unable to attend tonight's important meeting. My children attend Masonville public school and walk home each day. The walk is already not ideal as there are no sidewalks for most of their walk and several streets to cross along the way. An increase in traffic volume could be disastrous for these walkers who are young and required to walk on the roads. It is my hope that the city will approve a responsible plan that will keep traffic away from Hillview for the safety of the children.

“Please forward this to the clerk to be included in the Agenda Package”

Sincerely,

Lori Culhane,
resident 110 St. Bees Court
