To Whom It May Concern

Re: Parking regulation- Commerce Road London, ON  
File No.:210 040 41490

Brose Canada is prepared to expand are current parking areas to accommodate the influx of team members currently onsite.

Construction of these changes will commence in the spring of 2012. These changes have been discussed with the City of London Business Liaison office, our direct neighbors TransForm Automotive, and the LEDC.

Brose is requesting that the City of London postpone the "No Parking Anytime zone" until we can provide our team members with adequate space to park their vehicles. We have no objections to this area becoming a "No Parking Anytime zone" starting in the fall of 2012.

Should you require further information please do not hesitate to contact me directly.

Best Regards,  
Brose Canada Inc.

A handwritten signature in black ink, appearing to read "Ian Welsh". The signature is fluid and cursive, with a long horizontal stroke at the end.
