Subject: Converting Bruce Street and Elmwood Avenue

Dear Ms. Kucera

We support converting Bruce Street and Elmwood Avenue into two-way streets. I have previously contacted City Hall with concerns about vehicles driving way over the speed limit and using Bruce Street as a expressway due to it not having any stop signs between Wharncliffe and Wortley Road. This is a safety concern for children on the street. As well, I have encountered road rage from high speed drivers who express anger by yelling or honking when I turn my direction indicator on, slow down and turn into my driveway.

I am hopeful that two way traffic and perhaps a stop sign mid-way between Wharncliffe and Wortley, at the same intersection as the stop sign break on Elmwood, will solve this safety problem.

Thank you for offering this solution to our neighbourhood.

Nicole Bullbrook and Steve Viragos
