Re: Delegation for Civic Works Committee Meeting November 25, 2013

Dear MS Martin,

I am requesting delegation status for the November 25, 2013 Civic Works Committee regarding the construction of Stormwater Management Facilities 5 and 6 - Item 3 on the agenda.

I wish to discuss with the Committee the City's obligation under the Planning Act to evaluate open spaces for Provincial Significance and wildlife habitat.

I also wish to ensure that a genuine public process is conducted prior to any decision-making process by the committee.

Given the short notice of the issue being brought forward for approval, I am requesting that the delegation be open to myself and others that may want to address the committee.

Thank You
