Subject: [EXTERNAL] Proposed high school

To whom it may concern,

We are residents of the Uplands subdivision that is directly opposite of the proposed site for a new catholic highschool at 1927 Richmond St.

We are strongly opposed to such a development.

This intersection is already particularly busy and dangerous, especially at the beginning and end of school hours. We believe that this will negatively impact not only the Uplands neighborhood but also the adjacent neighborhood of Chantry and other surrounding quiet residential areas.

The volume and speed of vehicles traveling this particular area of Richmond st are already dangerous to anyone attempting to cross the road here etc. This includes large commercial trucks. The influx of traffic that will be a result of this school will only be a detriment to travelers and neighbors alike.

We hope you reconsider the development of this land for anything other than residential.

Blakeny and Corey Perry (residents Northcrest Dr)
