**Subject:** [EXTERNAL] Heritage home

A home that was designated as a heritage home should never be changed. We are losing a lot of historic buildings that we should be preserving. This is the history of where we live. I really do not understand why you would even think of building a school on a 4 lane highway where kids can get killed, and the congestion of traffic would be horrible with people dropping them off, school buses coming and going. What are you thinking this is absolutely wrong and not safe for our children, and preserving our culture of these beautiful historical homes is absolutely wrong.

I highly hope you do not change the status of this home and consider a different location for a school. There is already a catholic elementary school in that area and a highschool not too far. Do we really need to build another, perhaps build an addition to the existing once.

## 1927 RICHMOND STREET SLATED FOR DEMOLITION

Dear neighbours,

I have recently been made aware that the future of the heritage-listed estate at 1927 Richmond Street, directly across from Northcrest Drive, is at risk as the school board has applied to cancel its heritage status and demolish it to make way for a Catholic high school. Not only will this increase exponentially the difficulty of navigating traffic in an already busy street, more importantly, it poses a significant loss to the beauty and history of this area.

I would encourage you not to think to yourself “That’s too bad” and then proceed to ignore this post; instead, e-mail [mgreguol@london.ca](mailto:mgreguol@london.ca), being sure to include [pec@london.ca](mailto:pec@london.ca) to have your comments included in the planning committee debate. A public meeting will also be held on December 3.

Thank you

Miriam Allistone
