**Subject:** [EXTERNAL] Opposition to the Demolition of 1927 Richmond Street

To whom this may concern,

I am writing to express my strong opposition to the proposed demolition of the historic house at 1927 Richmond Street to make way for a high school. This decision would have significant negative impacts on the community and should be reconsidered for the following reasons:

1. **Loss of Heritage and History:** The house is a heritage-listed property, and demolishing it would erase an important piece of local history and architecture.
2. **Environmental Impact:** The removal of the mature woodlot surrounding the property would not only harm local biodiversity but also reduce valuable green space that contributes to air quality and overall community well-being.
3. **Traffic and Safety Concerns:** A high school in this location will significantly worsen traffic congestion. I can barely get to Western University in the current state of traffic.

Rather than demolishing this historic home, I urge the city to explore alternative sites for the high school that would not compromise the community's heritage, environment, and quality of life.

Thank you for considering my concerns. I hope the city council will prioritize the preservation of our community's identity and sustainability over this proposed development.

Sincerely,

Callum Thompson
