

Outdoor provision meeting regarding use of McCormick park as a homeless center
Could you please include my email on the public agenda for the agenda item 2.9
outdoor provision of basic needs.

As a homeowner in the area I strongly object to the Proposal that McCormick be used
for a homeless support location.

It is one of the few park spaces we have in the area that is already in bad shape due to
homeless encampments (garbage, needles etc).

Any further support that would encourage a greater population of homeless would make
this small park unusable for the surrounding residents.

Which we need for outdoor recreation.
