Re: Council Agenda 8.3 (10) Provision of Basic Needs

Dear Colleagues,

The attached two contracts for Safe Space were obtained after filing an MFIPPA request on Oct 4/24 and providing payment for the \$105 (3.5 hours of search time). The contracts which were received on Feb 12/25 had all of the expenses redacted.

In order to provide faster and more transparent information to the public, I very much appreciated members of the CPSC moving and supporting my amendments requesting that copies of the contracts be provided for receipt at the first CPSC meeting after the contracts are executed.

I will work on a motion to the appropriate committee making this a policy decision that would eliminate the need for an amendment to future recommendations for these single source procurements. It would also reduce the time and money spent on MFIPPA requests.

Sincerely,

A handwritten signature in blue ink that reads "Susan Stevenson". The signature is fluid and cursive, with the first name being more prominent.

Susan Stevenson
City Councillor, Ward 4
