

Committee: **London Housing Advisory Committee**

Name: **Peggy Stewart**

Address:

**188 Duchess Ave.,
London, On N6C 1P3**

Occupation: **Realtor**

Work experience: **After 37 years working in Neurology Departments in Canada and in England, and owning my own nursing agency specializing in neuro care in the community, I retired and then earned my Real Estate licence. My niche market is accessible housing.**

Education: **BA, R.E.T., E.P.T. (neuro technology credentials)**

Skills: **I have been on this Committee for, probably, 4 years or so and I would like to continue. Accessible housing...physical, social, geographical, financial and available...is my special interest and what I know well. I have worked on committees all of my adult life.**

Interest reason: **I am a Londoner through and through (when I lived in England, I lived in their London, too). I am proud of where the City has been and where it is going. I think we all need to be a part of making London as good as it can be.**

Contributions: **I am a very practical person, which is, I think important when looking at situations...being able to respond to the bigger picture is an asset.**

Past contributions: **I have been on committees 'forever' and at every level except treasurer which I do not want. I am a past president of Kiwanis, Forest City-London, and am presently on the Hay Foundation Board, Easter Seals Regional Committee, etc...a long list.**

Interpersonal: **Running my own health care agency with 111 employees gave me lots of experience in working with different personalities, strengths and weaknesses. I really had the best staff, but even so, there were challenges as we went along.**

Interview interest: **Yes**
