Footnotes and assumptions:

(1) - represents capital revenue such as provincial and federal grants and other contributions. Does not include debenture financing, transfers from operating or reserve funds.

(2) - for PSAB purposes, expenses not considered to be part of the cost of a tangible capital asset are expensed as operating expenses although funded through capital. Estimated based on 13% of capital expenditure budget.

(3) - represents the annual writedown of the tangible capital assets over the useful life of the asset. Estimated 5% annual increase based on 2012 actuals.

(4) - contributed tangible capital assets are tangible capital assets that become the ownership of the City when a subdivision is assumed by the City. These assets are recognized at fair market value during the year of assumption. These assets are predominantly comprised of roads, water and wastewater infrastructure.

(5) - when an asset is replaced prior to the end of its useful life, an adjustment must be made to expense the remaining book value. Amount fluctuates from year to year. Estimated \$1 m for 2014.

(6) - transactions recorded directly to reserve funds must be accounted for through the operating or capital fund. This includes recognition of development charge levies earned and federal gas tax earned in the year.

(7) - London Hydro Inc., Fair-City Joint Venture and City-YMCA Joint Venture are considered Government Business Enterprises (GBE). At year end, the City must record the City's share of earnings based on our percentage ownership in each GBE.

(8) - represents the annual increase in the estimated future cost of post-closure related to landfills. Estimate based on 5 year average.

(9) - represents the annual change in the estimated future costs of employee benefits. Estimate based on 5 year average.
