Item 4.6 - Councillor D. Ferreira - Advocacy Request - For Profit Addiction Treatment in Ontario

I am reaching out to council regarding the administering of treatment at 1 of the clinics in question.

It is on a daily basis that I witness people attending the clinic and exiting with the prescribed product in hand. That product then goes to people who do not even go into the clinic....for a price I'm sure. There are others who are on site who provide clean urine for the few that have to show a clean test before receiving the product.....also for a price I'm sure or exchanging for hard drugs

I don't think it's proper dispensing on the clinics end. It's like they are picking up take-out. The clinics need to be monitored more closely. Just like any other business in London that has regular inspections, this should apply to them as well because to them it's a business to make money!!

Thank you for your time
