<b>BACKGROUND</b>
-------------------

At its meeting held on January 10, 2012, Municipal Council approved and accepted the Schedule “C” Municipal Class Environmental Assessment and Hyde Park Road Improvements Environmental Study Report. The Environmental Study Report was subsequently placed on public record for a 30 day review period during which no Part 2 Orders were received. The project environmental assessment is thereby complete. The report study area included properties fronting and backing onto the road allowance throughout the length of the corridor from south of Oxford Street to north of Sunningdale Road, as well as adjacent natural areas.

The entire project is to follow a phased approach. The second phase of this project requires several partial property acquisitions within the corridor along with easements associated with the relocation of utilities.

Negotiations commenced in the Summer of 2013 for the acquisition of 25 property interests including 11 fee-simple partial acquisitions, 8 temporary limited interests for working easements, 2 permanent easements, 1 dedication and 3 easements for hydro utilities. To date 11 agreements have been completed with 14 agreements outstanding. It is necessary to start the appropriate expropriation procedures for seven (7) of the properties in order for the project to proceed. Realty Services will continue negotiations with the property owners in an effort to amicably acquire these properties to avoid expropriation if possible.

**Anticipated Construction Timeline**

Property requirements for utility relocation to be secured for the Fall 2014. The balance of the property requirements are to be secured for Spring 2015 construction.

A location map is attached for the Committee's information.
