**Subject:** IEPC - March 31, 2014

Hi Betty,

Further to my call, would you please note the London Medical Innovation and Commercialization Network for a 5 - 10 minute delegation at the March 31 IEPC meeting. Dean Michael Strong, Paul Paolatto and Dan Ross will be attending to report on the significant progress of the Network to date, the status of the Business Plan and funding initiatives in progress. It will be a verbal report and Q&A so no need for any IT support.

Thanks and feel free to contact me with any questions or further requirements.

Dan
