Subject: Concerns regarding removal of crossing guards.

I would like to express my disapproval with the removal of crossing guard on Wellington and Emery and invite you to stand with us in this crossing to witness how dangerous it is for our kids to do this by themselves. I walk my daughter and her friends to Holy Rosary Catholic Elementary School every day and I have witness how distracted drivers go true the red light even with the crossing guard in front of them, now imagine a distracted kid crossing the street full of drivers that do not pay attention to lights. And it doesn't matter if there is 13 or a 100 kids crossing the street it only takes one kid to get hurt for everybody to start saying "This Crossing Is Dangerous".

Lets do this right is kids we are talking about and we all are responsible for their safety. Pleas advise me how or where I can find more information about meetings or discussion about this topic because I want to be part of this decision and express my opinion.

Thank you.

Monica Brown.
