Some statistics that helped shape the plan

- Household makeup (60% live alone or with only 1 other person)
- 1 in 3 Londoners will be
 - Millennials
 - Over 55
 - In Labour force foreign born

No statistics on how many women & men will make up our city over the next 25 years

Active Transportation

Women's use of cycling infrastructure differs from that of men's.

Transit Villages

- Complete communities with amenities is positive for women
- Consideration of lighting, visibility, security & timing as priority
- Women tend to multi-trip when using transit
- Have cargo & children in tow
