Welcome

AECOM

Welcome to the first Public Information Centre (PIC) for the
Western Road/Wharncliffe Road Widening from Platts Lane to Oxford Street
Municipal Class Environmental Assessment (Class EA).

The purpose of this PIC is to present:

- a description of the Class EA process;
- a summary of the existing conditions;
- a summary of the problems/issues;
- a description of the Alternative Planning Solutions considered;
- the Preferred/Recommended Alternative Planning Solution; and
- a summary of the future considerations and activities to be completed as part of the EA Study.

Municipal Class Environmental Assessment Process

AECOM

- The Class EA process is a five phase planning process which:
 - identifies reasonable solutions to the Problem;
 - considers advantages and disadvantages including net environmental effects;
 - requires public consultation; and
 - provides clear documentation that describes the decision making process.
- This study has:
 - Followed the Schedule 'C' Class EA requirements.
 - Completed Phases 1 & 2 of the 5 Phase process.
 - Document the decision making process in an Environmental Study Report to be filed for a 30 day review period.

★ This project is proceeding as a Schedule C

Alternative Design Concepts

The following criteria will be used to evaluate the Alternative Design Concepts. The evaluation process is based on a qualitative assessment to consider the suitability of each solution and identify significant advantages and disadvantages.

Next Steps

AECOM

Spring 2014

- Consider input from public and agency consultation to confirm or refine the **Preferred Alternative Planning Solution**
- Determine **Alternative Design Concept** that can implement the Planning Solution
- Evaluate Alternative Design Concepts to determine a **Preferred Alternative Design Concept**

Summer 2014

- PIC #2 to present Preferred Alternative Design Solution to the public.
- Consider input from public and agency consultation to confirm or refine the **Preferred Alternative Design Concept**
- Prepare Environmental Study Report
- Present recommendations to Civic Works Committee & Council.
- Issue a Notice of Completion and File the report for the mandatory 30 day review period.
- Address comments raised during the 30 day review period.
- If no Part II Order requests are received, then the City may proceed with detailed design & implementation.

2015 - 2016

- Detailed Design
- Approvals

2017

- Construction
