- Strategic Priorities and Policy Committee – December 4, 2012

BACKGROUND

In December 2011, London City Council approved the 2011-2014 Strategic Plan. This Plan identified five results that contribute to the high quality of life in London: A Strong Economy; A Vibrant & Diverse Community; A Green & Growing City; A Sustainable Infrastructure; and A Caring Community.

On an annual basis, the City of London releases a Report to the Community to showcase progress towards the Strategic Plan over the past year. The 2011 Report to the Community was a paper-based report. In 2012, the Report to the Community was presented in an award-winning online format (www.communityreport.ca), and this format was continued for 2013.

This year, to mark the conclusion of the current Strategic Plan, a 2011-2014 Report to the Community is in development. This Report will reflect progress over the duration of the Strategic Plan from 2011 to 2014. It will be presented in an updated online format with an accompanying print document to allow for capturing four years of information. The 2011-2014 Report to the Community is targeted for release at Strategic Priorities and Policy Committee on August 27.
