Subject: motion re: grants

Staff provide an update and outline the implementation plan with respect to how the Strategic Funding Framework, endorsed by Council on June 20, 2011, being implemented in the spring of 2012 as part of the 2013 budget, will affect existing and new organizations receiving City of London grant funding.

The following questions are to be considered as part of the Strategic Funding Framework:

- 1. How will the City of London funding leverage additional investment in the community?**
- 2. What prevents an organization from receiving funding automatically each year?**
- 3. What are the expectations to move organizations toward self-sufficiency?**
