**Subject:** House on Sanatorium

Hi:

I live across the road and down a few houses from the house in question and have lived there for 20 years. I have asked repeatedly for years to have it removed or torn down because it is an eyesore and a firetrap. What was once a beautiful home, is now dilapidated and falling apart. It does not look good for CPRI, nor does it look good for London. Being across from an elementary school is also not safe. I believe it should be torn down as no one takes care of it, and it looks much worse as it stands. I cannot attend the meeting, but would like my comments to be heard regarding this home. Fix it up completely or tear it down. It cannot remain as it is.

Thank you,

[Heather Charron-McGee](#)
