User guide to RAIDS online – Crime mapping for London Police Service

http://www.raidsonline.com/

Enter: **London, Ontario** in the address box and click on 'Go to Address'
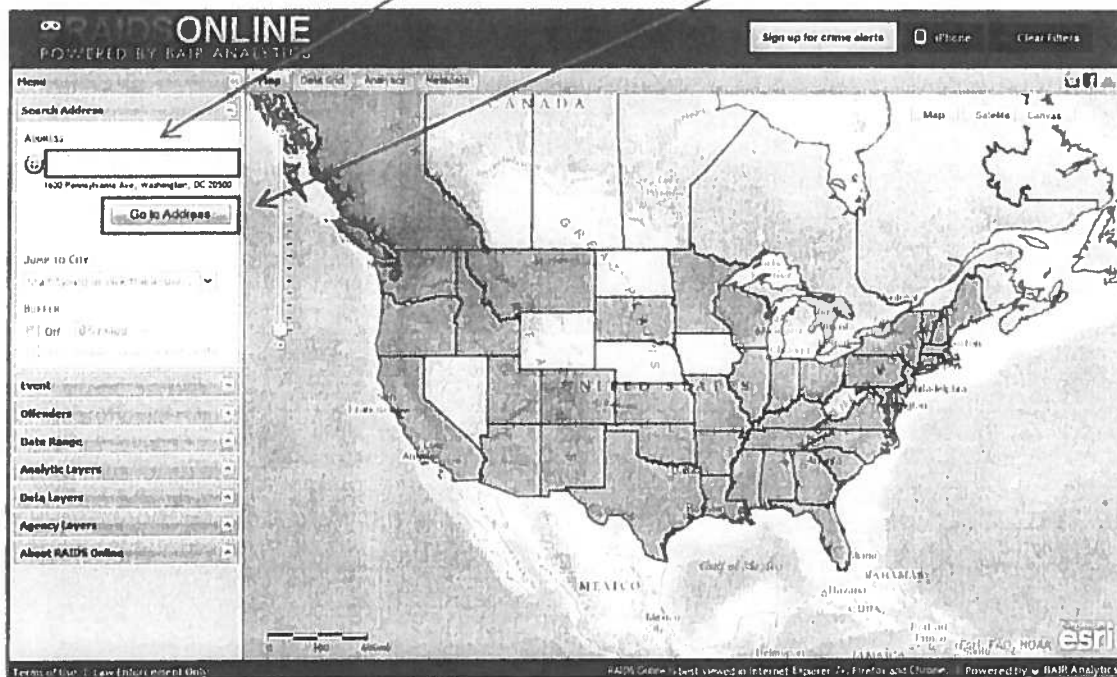

You will see a screen with London streets and various symbols displayed.
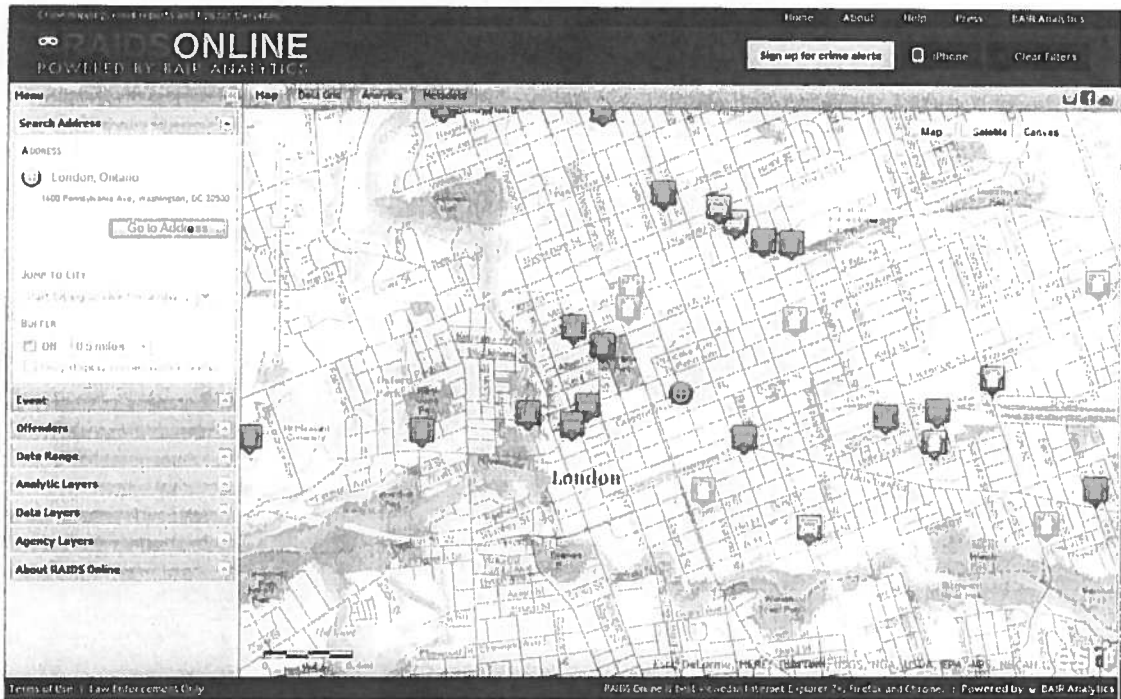

The symbol in the centre of the map indicates the City centre.

All crime locations displayed are shown with a distance from this point. By typing a specific address, you can relocate the centre point. Crime incidents will then show distances relative to that location.

The section on the left-hand side has a series of drop-down lists that allow you to select different crimes for display on the map.

Sign up for daily, weekly, or monthly email alerts about crime occurring within a certain distance of an address of interest, such as your home, workplace or school. Please note that the quality of Neighborhood Watch Reports depends directly on the frequency agencies upload their data. If an agency does not upload data on a daily basis, then your report will not include all the crime that occurred in your area.
