RE: Demolition of 321 Central/581 Waterloo (Nov. 18 agenda)

Dear Sirs/Mesdames

My wife and I, resident in Woodfield for 43 years, support the Woodfield Community Association stand not in favour of the demolition of the above two properties. We do accept the creation of a development as long as it fits the existing footprint of the property (the former Supertest station site).

Both buildings provide harmony to the view of the properties in that area. 321 Central reflects similar buildings opposite to the north across Central Avenue and the buildings at the corner of Central and Waterloo. It also provides a step down and setback which softens the look of the imposing large apartment building on its west side.
