December 4, 2014

Corporation of the City of London

Members of Council,

As you review all the committees that require participation from council members, I ask that you consider the following for the Middlesex London Health Unit.

Prior to 2014, the Middlesex London Health Unit Board representation consisted of 2 city councilors, and 1 appointed representative. This was changed due to the appointed representative resigning from the Board.

I am hereby submitting my name and ask that you consider returning to the 2 councillors and 1 appointed member. Much was accomplished in the last 4 years including a new Medical Officer of Health and a Finance Committee, however much more work is required and my past experience would bring continuity to this Board.

Respectfully submitted,

Denise T. Brown
