Ladies & Gentlemen

Good afternoon.

My name is Bob Young. My wife Mary Ellen and I have been at 2135 Wellingford Ave for over 2 years.

We are approximately 100 yds from the new proposed solid 8' privacy wall.

Here are some of the reasons we are supporting Rembrandt's construction of an 8' privacy wall.

- Privacy - to enjoy our new home.
 - no gate entrance to Wonderland Rd
- Security - from intruders
 - no gate entrance to Wonderland Rd.
- Peace of mind.
 - no gate entrance to Wonderland Rd.

These gates would negate the effectiveness of a solid wall.

We understand that the proposed wall also has a sound barrier feature as well.

Roundabout.

The new roundabout at Wonderland Rd and Sunningdale Rd is now moving traffic very efficiently. Our compliments to the planners. A job well done.

Problem

The issue now is increased traffic due to the building explosion in the North end. We now have extreme noise that rips through our home making it difficult at times to hold a normal conversation.

The increased traffic with gravel trucks, engine breaks, large construction vehicles and transports going to highway 7 makes noise!!!

Oh did I mention motorcycles? They're back!

This traffic noise continues from 6 AM to 7 PM.

The pace of traffic and noise has increased 30% from pre-roundabout construction.

I also understand there will be a widening of Wonderland Rd. at a future date.

During the winter, Mother Nature has supplied us with an insulating snow covering which reduced the traffic noise somewhat.

Just think what a solid wall would do.

There are privacy walls throughout the city. To name a few - Veteran's Parkway, Meadowgate Blvd x Chelton - Wonderland Rd from Sarnia Rd to Hanshawe etc.

The proposed 8' privacy wall with staggered indented landscape planting would be esthetically pleasing to all.

Just to restate our support for this wall we feel it would provide the necessary privacy, peace of mind, security and sound attenuation we need.

Please make our small community a sanctuary so we may all enjoy a better quality of life.

Thank you.

Bob Young.
