BACKGROUND

At its meeting held on April 2, 2009, Municipal Council approved and accepted the Schedule “C” Municipal Class Environmental Assessment and Fanshawe Park Road Improvements Environmental Study Report. The Environmental Study Report was subsequently placed on public record for a thirty (30) day review period during which no Part 2 Orders were received. The project environmental assessment is thereby complete. The report study area included properties fronting and backing onto the road allowance throughout the length of the corridor from Adelaide Street North to east of Highbury Avenue as well as adjacent natural areas. The entire project is to follow a phased approach. The second phase of this project requires several partial property acquisitions within the corridor along with easements associated with the relocation of utilities.

Negotiations commenced in the Spring of 2014 and written offers have been rejected by the remaining three property owners. In order to meet the project and associated construction timelines, it is necessary to commence expropriation proceedings. The Civic Administration will continue negotiations with the property owners in an effort to amicably acquire these properties.

Anticipated Construction Timeline

Property requirements are to be secured for Spring 2016 construction.

A location map is attached as Schedule “A” for the Committee’s information.
