

Committee: **Advisory Committee on the Environment**

Organization/Sector represented: **Renewable Energy**

Name: **Thomas Stoiber**

Address:

**864 Rushbrook Crescent  
London, On, N6K 5B6**

Occupation: **Head of Purchasing Siemens Wind Power Canada**

Work experience: **over 20 years of international purchasing experience in automotive, IT and renewable energy**

Education: **German Banking Diploma**

Skills: **Working in renewable energy has allowed me to understand the correlation between financial benefits and environmental protection**

Interest reason: **Since my younger years I have been very actively involved in environmental activities. Due to the current climate changes we are facing, it has become evident to me that we need to act now as individuals and collectively to revert the negative impact in the environment we are experiencing**

Contributions: **I hope to apply the knowledge I have acquired in over 20 years of experience, to find viable solutions to the existing environmental issues that currently affect our city**

Past contributions: **When I lived in Germany I participated in environmental organizations such as 'Bund Naturschutz' this organizations promoted the protection of local flora and fauna**

Interpersonal: **Thorough my experience leading teams of different sizes and cultural backgrounds I have learned to respect and appreciate different opinion and try and to reach mutual agreements.**

Interview interest: **Yes**
