

ER Lands Study was based on the OMB ruling with respect to OP Chapter 8. Chapter 8 vegetation patches had been identified in the Subwatershed Studies as Significant Woodlands. The designation of ER to OS was deferred pending further evaluation. The findings of the ER Lands Study is that the Subwatershed Study evaluation was correct.

ha	n	Percent	Cumulative Count	Cumulative Percent	
< 0.5	14	3.5			excluded from qualitative assessment in ER Lands Study
0.5 - 1.999	91	22.5			
2.0 - 3.999	89	22.0	194	48.0	
4.0 - 9.999	105	26.0			<b><i>Satisfies Criterion for Size</i></b>
10 - 14.999	35	8.7			
15 - 24.999	38	9.4			
> 25	32	7.9	210	52.0	
	404	100.0	404	100.0	

Based on the Criterion for Size only 52% of vegetation patches in the City of London ELC Database satisfy this criterion.
