**WESTERN ROAD/WHARNCLIFFE ROAD NORTH WIDENING FROM PLATTS LANE  
TO OXFORD STREET MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT  
NOTICE OF PUBLIC INFORMATION CENTRE #2**

The City of London has retained AECOM to undertake a Schedule 'C' Municipal Class Environmental Assessment (Class EA) to identify an implementation strategy for the necessary transportation infrastructure requirements along Western Road and Wharncliffe Road North, from Platts Lane to Oxford Street. The Class EA will identify and balance the needs of the users within the community including, pedestrians, cyclists, rail, transit vehicles, and motorists.

The second Public Information Centre (PIC) is scheduled for Wednesday April 1, 2015 at Kinsmen Recreation Centre, 20 Granville Street from 5:00pm – 8:00pm. **Agencies are invited to attend from 4:30pm – 5:00pm.** This meeting will be an open house format with no formal presentation being made. Information presented will include design alternatives to address the preferred planning solution, an overview of the related advantages and disadvantages of each alternative, and the selection of the recommended design.

Members of the public are encouraged to attend and provide comments specific to the project. The project team will be available to answer questions and provide information related to the project.

Once the alternatives and recommendations have been reviewed with interested parties, an Environmental Study Report (ESR) will be prepared to document all of the stages of the study. This document will be available for public review for a period of 30 calendar days.

Comments and information regarding this project are being collected to assist in meeting the requirements of the Environmental Assessment Act. This material will be maintained on file for use during the project and will become part of the public record, with the exception of personal information. Comments received will be used in accordance with the Freedom of Information and Protection of Privacy Act.

If you wish to obtain additional information about the study or provide input at any point during the study, please contact any of the following Project Team members:

Mr. Peter McAllister, P.Eng., PMP
