## NOTICE OF APPLICATION for Approval of Draft Plan of Vacant Land Condominium

The City of London has received an application for approval of a draft plan of Vacant Land condominium as shown on the map attached. The proposed draft plan of condominium is described below. The City of London has also received an application for Site Plan Approval. We are advising you of these applications to invite your comments and the comments of nearby property owners.

**APPLICANT:** Sifton Properties Limited

**LOCATION:** **Municipal Address:** 555 Sunningdale Road East, east of Canvas Way

**Planning District:** Uplands

**Watershed:** Stoney Creek

**Assessment Roll Number:** 090450353050000

**PURPOSE AND EFFECT:** The purpose and effect of this application is to permit the development of 30 townhouse units within a plan of condominium.

**PROPOSAL:** Consideration of a Vacant Land Plan of Condominium with 30 townhouse cluster units, all served by a common element road.

The registration of a Vacant Land Condominium means that each unit will be sold to a future homeowner either before or after the home is constructed on the unit. Planning and Environment Committee will be considering the implications of dividing the land into units and common elements as shown on the attached draft plan. The Site Plan application (File SP-15005543) to determine the physical form of development is currently under review for approval.

**PLANNING POLICIES:**

The Official Plan designates these lands "Multi-Family, Medium Density Residential" allowing various forms of cluster housing such as single detached units, townhouses and stacked townhouses as the main permitted uses.

The site is presently within a Residential R5 Special Provision/Residential R6 Special Provision (R5-3(9)/R6-4(8)) Zone, which currently permits townhouses, stacked townhouses, and single detached, semi-detached and apartment dwellings at a maximum density of 35 units per hectare, with a special provision requiring a minimum main building setback of 20 metres (65 feet) from the centre of the existing Imperial Oil Pipeline.
