RE: Street light LED retrofit project Save ON Energy Application #139,111

Shane,

Our team has performed a review the recent incentive application. This letter is to confirm that the presented project for the replacement of 9,700 streetlight fixtures with various LED fixtures has been pre-approved. The pre-approval confirms a budgeted amount of \$1,323,000 in incentive dollars for the project. The final amount of incentive will be determined upon completion of the installations and final review of the installed fixtures. It is normal that there are minor variances and this may affect the final incentive in a minor degree.

In order to receive the incentive, the City of London and its contractors if any, must adhere to the program rules and obligations. London Hydro staff will work with City and their contractor to ensure incentives and reporting obligations are met in a timely fashion.

Yours Truly

London Hydro Inc.

Hans Schreff  
Manager of CDM Programs
