Subject: Proposed Revision To The W12A Landfill Haulage Route

Mr. Mike Losee
Manager, Solid Waste Engineering
Environmental & Engineering Services
City Of London, Ontario

This EMAIL is from Eugene Morrison, 4267 Manning Drive London. Because I am currently in hospital, I have not been able to prepare a submission by the May 25, 2015 deadline nor will I be able to attend the June 2, 2015 PLC meeting at City Hall.

My wife and I are not happy about the Manning West Haulage Route proposal and are quite concerned with the potential impacts of implementation:

1. Safety - Speeding Trucks enticed by lowly populated Manning straight-aways - Need for Speed control.
2. Safety - The Whiteoak/Manning 4 Way Stop Intersection - Nobody Stops now.
3. Safety - Need for Navigation Street Lights at Manning/Wonderland and Whiteoak/Manning Intersection.
3. Increased Garbage litter flying from trucks = Need for wider area clean-up.
4. Potential Mail Delivery Impact - Need for Set -back, etc.
5. Need to increase W12A mitigation coverage area.
6. Need to clean out Manning Road's increasingly filled ditches that are causing water back-up in fields.

Your consideration and help in forwarding these concerns would be appreciated.

Eugene Morrison
