

June 1, 2015

Dear Bob,

ReForest London is very pleased share our 2014 Annual Report highlighting another year of growing accomplishments and community improvements. Since our beginnings in 2005, ReForest London has continued to plant thousands of trees and shrubs in community parks and schoolyards all across the city. These trees make a direct impact on the quality of life in our city and on our own human health.

London's Million Tree Challenge continues to become a truly community-wide challenge with over 180 business and organizations pledging to take action in improve our urban forest. Inspiring and engaging new audiences results in increased tree planting in front and back yards, at businesses, institutional and industrial properties. Each of these sectors are key if London is going to retain and deserve the name Forest City.

We are extremely grateful for the commitment and action shown by our financial donors, in-kind supporters, thousands of volunteers and our Million Tree Challenge Partners. Our collective actions are making our community greener and healthier. Our successes belong to everyone who has donated money, volunteered time, or taken their own actions in their own way to ensure all Londoners enjoy a leafy and healthy community.

Please consider how you, your community, your workplace or your worship group might play a part in making our city a little greener and leafier in 2015. Even the smallest of actions helps grow our collective impact and helps realize the kind of healthy city we all want for ourselves today, and for future generations.

On behalf of the Board of Directors and the dedicated staff of ReForest London, thank you for your ongoing support in all its many forms. I hope you enjoy our 2014 Annual Report.

Sincerely,

A handwritten signature in black ink that reads "Dean Sheppard". The signature is written in a cursive, flowing style.
