Subject: request delegation status at a meeting of the Community and Protective Services Committee.

Hello

My name is Brenda Fuhrman and I live at 37 Terrace St. London , ON.

I am writing to you to request delegation status at a meeting of the Community and Protective Services Committee.

The specifics of why I want to address this committee are my concerns about the E-bikes in our city. I have read the bi-law addressing e-bike operation and it that is clear and thorough. My main concern is - how has this bi-law been to communicated to the public and how is it being enforced.

My concerns stem from the fact that the e-bike operators continue to use the bike paths and ride on the side walks. When I have stopped some e-bike riders on the bike path they argue that they are "allowed by law" to ride on the path. The dangers

of e-bikes on the bike path and the sidewalks are self-evident. I have proposals for remedies but I need to address the committee to make this concern clear . My hope is wide communication of the bi-law and some sort of enforcement will help to avoid accidents and law suits for the city of London.

Thanks you

Yours sincerely

Brenda Fuhrman
