To whom it may concern:

I am the director of Les Ciseaux Ltd. At 350 Dundas St, London-On. I've just recently heard city of London is planning to build a Social Housing right next to our business. Due to the nature of our clients at the salon, our business will be affected substantially if this were to occur and we will be forced to move our business elsewhere. We are very happy at this current location and I believe my salon plays a major role in rebuilding downtown. Therefore, I strongly object to this plan of building a Social Housing at this location and I strongly believe other small business owners in the surrounding area would feel the same way.

Please consider.

Sincerely,

JennyLuong
