Work experience: **I am currently on the Leadership team of Southwest Economic Alliance. We believe in prosperity through connectivity to improve the quality of life for all people in Southwestern Ontario. All people. The haves and the have nots. Typically those with barriers to access are under-serviced and it is a challenge for them to reach their true potential. I worked on a JCP assignment for ATN Access for Persons with Disabilities. I also was the Face to Face Coordinator for Community Living London on a short project. I have a clear understanding of all disabilities and the challenges of accessibility people face in London.**

Skills: **Communications skills, compassion and desire to improve accessibility. I am AODA Certified. I participated in Pillar Nonprofit's Leading for Community Change workshops 2013.**

Interest reason: **As a person who identifies as being disabled having been a pedestrian involved in a vehicular-pedestrian hit and run accident I understand the lived experiences of those with mobility, accessibility and disabilities.**

Contributions: **I am committed, compassionate, professional, and want to make London the best it can be. This is my hometown. I was born and raised here. I also have seen where we have not made this a user-friendly city and I bring a fresh pair of eyes to City of London**

Past contributions: **I contribute my enthusiasm, respect for people, and compassion each and every day no matter what I am working on.**

Interpersonal: **I volunteered for LAWC that required monthly meetings with various different people working toward goals and projects.**
