Subject: RE: ACCAC Next Meeting

Betty,

Please find attached the updated list of traffic signals without audible pedestrian pushbuttons. We have prioritized the list taking into consideration the pedestrian volume, the type of intersection and the number of left-turn advance signals. We are open to comment and suggestions from ACCAC regarding the list.

Shane Maguire, P. Eng.
Division Manager
Roadway Lighting & Traffic Control
For street light and traffic signal outages please call 519 661-2641.
