

Hello,

My name is John Tsiropoulos and I am a London resident, residing at 6 Parkside Crescent. I have been following the media report about 759 Elizabeth, and my nephew is the new owner who wants to develop the property. London needs to move forward in direct of more jobs, more investment, and prosperity for our community. According to the cultural built heritage assessment, this house should not be designated under the Ontario Heritage Act. I believe that this house should be demolished in favour of new development in our city.

John Tsiropoulos
